Jawatankuasa Kabinet Jaminan Makanan akan ditubuhkan

KUALA LUMPUR: Jawatankuasa Kabinet Mengenai Jaminan Makanan yang dipengerusikan Perdana Menteri, Tan Sri Muhyiddin Yassin akan ditubuhkan tidak lama lagi bagi merumuskan Dasar Jaminan Bekalan Makanan Negara, kata Menteri Pertanian dan Industri Makanan, Datuk Seri Dr Ronald Kiandee.

Beliau berkata subsektor makanan pertanian akan menjadi tumpuan utama dalam sektor pertanian untuk mencapai agenda meningkatkan jaminan makanan Malaysia dan menjana pendapatan yang lebih tinggi bagi barisan hadapan pertanian.

Tumpuan akan merangkumi antara lain untuk memperkukuh rantaian bekalan makanan, meningkatkan sokongan dan perkhidmatan penyampaian, meningkatkan pengetahuan dan kemahiran teknologi serta menggalakkan lagi pematuhan terhadap standard dan amalan pertanian yang baik, katanya dalam satu kenyataan mengenai *Food Security and COVID-19: The Way Forward*, hari ini.

Beliau berkata kementerian merancang untuk pasca COVID-19 dengan mencari pelbagai penyelesaian jangka sederhana dan panjang untuk membantu barisan hadapan pertanian pulih daripada keadaan yang disebabkan oleh pandemik ini.

Kementerian, katanya juga akan terus memainkan peranan lebih aktif dalam mencari akses pasaran baharu dan pada masa yang sama membawa pelabur ke arah memajukan ekonomi dalam pertanian.

Beliau berkata dengan Rancangan Malaysia Ke-12 (RMKe-12) dan Dasar Agro Makanan Negara (NAFP) 2.0 yang akan datang, kerajaan akan terus memacu pemodenan dalam subsektor makanan pertanian dengan memanfaatkan Revolusi Perindustrian 4.0 (IR4.0).

Ini, katanya untuk meningkatkan jaminan dan keselamatan makanan dengan meningkatkan produktiviti, menjana pendapatan lebih tinggi dan menarik generasi muda agropreneur yang akan akhirnya menambah sumbangan nilai tambah pertanian kepada Keluaran Dalam Negara Kasar (KDNK).

Beliau berkata antara cabaran dalam sektor pertanian negara ialah kurangnya penggunaan jentera dan automasi, kebergantungan pada pekerja asing, kurang pelaburan dan dana swasta, kesukaran mengakses pasaran serta kekurangan benih berkualiti.

"Satu lagi rintangan utama untuk mencapai jaminan makanan ialah kebergantungan kita pada import daging, sayur-sayuran dan buah-buahan dari kawasan beriklim sederhana yang mengakibatkan defisit imbalan perdagangan makanan pertanian kerana kita membelanjakan lebih dari RM50 bilion untuk mengimport hasil ini," katanya.

Beliau berkata paras kadar sara diri (SSL) bagi buah-buahan pada 78.4 peratus, sementara SSL untuk sayur-sayuran pada 44.6 peratus dan 22.9 peratus bagi produk daging.

Kiandee berkata, perlu ada perubahan paradigma dalam pertanian yang tidak boleh lagi dilihat sebagai industri 3D (kotor, berbahaya, susah), dan penglibatan generasi muda menjadi perkara utama ke arah IR4.0 dan memodenkan sektor pertanian di Malaysia melalui penggunaan teknologi dan teknik terkini.

Beliau berkata, setakat ini, hanya 8.5 peratus petani berusia di bawah 40 tahun dan Program Agropreneur Muda di bawah kementerian telah menghasilkan lebih 5,000 usahawan.

Pada fasa ketiga Perintah Kawalan Pergerakan (PKP), beliau berkata rakyat tidak perlu membuat pembelian panik atau menyimpan stok kerana kementerian berusaha sebaik mungkin untuk memastikan rantaian bekalan makanan kukuh.

Beliau juga mengingatkan rakyat Malaysia supaya mengakui usaha golongan barisan hadapan termasuk dalam sektor pertanian seperti petani, nelayan dan pengeluar makanan yang mendedahkan diri mereka kepada risiko untuk memastikan kesinambungan bekalan makanan pada masa pandemik ini. – BERNAMA

Cabinet Committee on food security to be set up — Ronald Kiandee

promoting greater compliance to standards and good agricultural practices, he said in a statement on 'Food Security and Covid-19: The Way Forward' today.

KUALA LUMPUR (April 22): A Cabinet Committee on Food Security, chaired by Prime Minister Tan Sri Muhyiddin Yassin, will be established soon to, among others, formulate the National Food Security Policy, said Minister of Agriculture and Food Industry Datuk Seri Dr Ronald Kiandee.

He said the agro-food sub-sector will be the main focus in the agriculture sector, in order to achieve the agenda of improving Malaysia's food security and generating higher income for agriculture frontliners.

The focus would include strengthening the food supply chain, improving support and delivery services, enhancing technological knowledge and skills, as well as

He said the ministry was planning for the post-Covid-19 period by looking at various medium- and long-term solutions to help the agriculture frontliners recover from the setback caused by the pandemic.

The ministry, he said, will also continue to play a more active role in searching for new market access, while at the same time bringing in investors to create economies of scale in agriculture.

With the upcoming Twelfth Malaysia Plan (RMK-12) and National Agro-Food Policy (NAFP) 2.0, the government will continue to foster modernisation in the agro-food sub-sector by leveraging on Industrial Revolution 4.0 (IR4.0), he added.

He said this is to improve food security and safety by increasing productivity, generating higher income and attracting the younger generation of agropreneurs, which will ultimately increase the contribution of total agriculture value added to gross domestic product (GDP).

He noted that among the challenges in the country's agriculture sector were the low utilisation of mechanisation and automation, dependency on foreign workers, lack of private investment and funding, difficulty in accessing market, an unsustainable subsidy mechanism and lack of quality seeds and breeds.

"Another one of the major hurdles towards achieving food security is our dependency on the imports of meats, vegetables and fruits from temperate regions has resulted in a deficit agro-food trade balance as we spend more than RM50 billion to import these (types of) produce," he said.

He added that the self-sufficiency level (SSL) for fruits is now at 78.4%, while the SSL for vegetables is at 44.6% and for meat products, 22.9%.

Kiandee called for a paradigm shift in agriculture, where it should no longer be viewed as a 3D (dirty, dangerous, difficult) industry, adding that the involvement of the younger generation is the key towards bringing in IR4.0 and modernising the agriculture sector in Malaysia, through the adoption of the latest technologies and techniques.

He said that only 8.5% of farmers are under the age of 40 and so far the Young Agropreneur Programme under the ministry, has produced more than 5,000 entrepreneurs.

He also advised the people to refrain from panic buying or stock-piling, as the ministry was doing its best to keep the food supply chain intact during the Movement Control Order (MCO) period.

He reminded Malaysians to acknowledge the efforts of frontliners including those in the agriculture sector such as farmers, fishermen and food producers who are putting themselves at risk to ensure continuity of food supply during the pandemic.

Penularan COVID-19

Tubuh Jawatankuasa Kabinet Jaminan Makanan

Jana pendapatan lebih tinggi bagi barisan hadapan pertanian

Kuala Lumpur: Jawatankuasa Kabinet Mengenai Jaminan Makanan yang dipengerusikan Perdana Menteri, Tan Sri Muhyiddin Yassin akan ditubuhkan tidak lama lagi bagi merumuskan Dasar Jaminan Bekalan Makanan Negara.

Menteri Pertanian dan Industri Makanan, Datuk Seri Dr Ronald Kiandee, berkata subsektor makanan pertanian akan menjadi tumpuan utama dalam sektor pertanian untuk mencapai agenda meningkatkan jaminan makanan Malaysia dan menjana pendapatan yang lebih tinggi bagi barisan hadapan pertanian. Katanya, tumpuan akan me-

rangkumi antara lain untuk memperkukuh rantai bekalan makanan, meningkatkan sokongan dan perkhidmatan penyampaian, meningkatkan pengetahuan dan kemahiran teknologi serta menggalakkan lagi pematuhan terhadap standard dan amalan pertanian yang baik.

Beliau berkata, kementerian merancang untuk pasca COVID-19 dengan mencari pelbagai penyelesaian jangka sederhana dan panjang untuk membantu barisan hadapan pertanian pulih daripada keadaan yang disebabkan oleh pandemik ini.

Kementerian, katanya juga akan terus memainkan peranan lebih aktif dalam mencari akses pasaran baharu dan pada masa yang sama membawa pelabur ke arah memajukan ekonomi dalam pertanian.

Beliau berkata, dengan Rancangan Malaysia Ke-12 (RMK-12) dan Dasar Agro Makanan Negara (NAFP) 2.0 yang akan

datang, kerajaan akan terus memacu pemodenan dalam subsektor makanan pertanian dengan memanfaatkan Revolusi Perindustrian 4.0 (IR4.0).

Ini, katanya untuk meningkatkan jaminan dan keselamatan makanan dengan meningkatkan produktiviti, menjana pendapatan lebih tinggi dan menarik generasi muda agropreneur yang akan akhirnya menambah sumbangan nilai tambah pertanian kepada Keluaran Dalam Negara Kasar (KDNK).

Beliau berkata, antara cabaran dalam sektor pertanian negara ialah kurangnya penggunaan jentera dan automasi, kebergantungan pada pekerja asing, kurang pelaburan dan dana swasta, kesukaran mengakses pasaran serta kekurangan benih berkualiti.

"Satu lagi rintangan utama untuk mencapai jaminan makanan ialah kebergantungan kita pada import daging, sayur-

sayuran dan buah-buahan dari kawasan beriklim sederhana yang mengakibatkan defisit imbang perdagangan makanan pertanian kerana kita membelanjakan lebih dari RM50 bilion untuk mengimport hasil ini," katanya dalam satu kenyataan mengenai *Food Security and COVID-19: The Way Forward*, di sini, semalam.

Beliau berkata paras kadar sara diri (SSL) bagi buah-buahan pada 78.4 peratus, sementara SSL untuk sayur-sayuran pada 44.6 peratus dan 22.9 peratus bagi produk daging.

Kiandee berkata, perlu ada perubahan paradigma dalam pertanian yang tidak boleh lagi dilihat sebagai industri 3D (kotor, berbahaya, susah) dan pembabit generasi muda menjadi perkara utama ke arah IR4.0 dan memodenkan sektor pertanian di Malaysia melalui penggunaan teknologi dan teknik terkini. **BERNAMA**

Bekalan barangan keperluan harian mencukupi

PUTRAJAYA: Barangan basah dan keperluan asas lain dijamin mencukupi untuk menampung permintaan rakyat seluruh negara secara berterusan termasuk sepanjang tempoh Ramadan, kata Menteri Kanan (Kluster Keselamatan) Datuk Seri Ismail Sabri Yaakob.

Untuk itu, beliau yang juga Menteri Pertahanan berharap supaya orang ramai merancang dan tidak bersesak-sesak ketika membuat persiapan Ramadan di mana-mana premis, selain terus mematuhi arahan termasuk jarak sosial.

"Orang ramai dinasihatkan supaya tidak bimbang dengan bekalan makanan dan keperluan harian bagi sambut Ramadan kerana ia mencukupi," katanya dalam sidang media harian berkenaan Perintah Kawalan Pergerakan (PKP), di sini

semalam.

Mengulas lanjut, Ismail Sabri berkata, sehingga kini Kementerian Perdagangan Dalam Negeri dan Hal Ehwal Pengguna (KPDNHEP) telah membuat pemantauan harian terhadap 25 jenis bekalan di 1,133 premis perniagaan termasuk peruncit (833), pemborong (268) dan pengilang (32).

Langkah proaktif itu katanya, bertujuan memastikan agar rakyat negara ini tidak bimbang atau berebut mendapat bekalan barangan diperlukan sepanjang tempoh PKP.

Mengulangi jaminan bekalan keperluan mencukupi, Ismail Sabri berkata, pemantauan berterusan pihak KPDNHEP dan Kementerian Pertanian dan Industri Makanan (MOA) mendapati keperluan barangan basah serta keperluan asas lain mampu menampung keperluan rakyat secara berterusan.

Dalam perkembangan lain, Ismail Sabri memaklumkan bahawa pengagihan bantuan makanan hasil sumbangan syarikat korporat dan badan bukan kerajaan (NGO) sedang dalam proses penyelarasan.

"Kita sedang mengambil tindakan (tentang perkara ini). Kita akan selaraskan sumbangan untuk disampaikan kepada penduduk," katanya.

Beliau mengulas mengenai perkembangan proses pengagihan bantuan makanan kepada penduduk di Taman Sri Murni di Selayang selepas dikenakan Perintah Kawalan Pergerakan Diperketatkan (PKPD) sejak Isnin lepas.

Terdapat dakwaan bahawa rata-rata penduduk berada dalam keadaan stres dan bimbang kerana bekalan barangan harian terutama makanan semakin berkurangan. - Bernama

Bekalan sempena Ramadan cukup

Kuala Lumpur: Orang ramai dinasihatkan tidak bimbang dengan bekalan keperluan makanan harian bagi menyambut Ramadan kerana ia dijamin mencukupi.

Menteri Kanan (Kluster Keselamatan) Datuk Seri Ismail Sabri Yaakob berkata, penguatkuasa Kementerian Perdagangan Dalam Negeri dan Hal Ehwal Pengguna (KPDNHEP) membuat peman-tauan harian 25 jenis bekal di 1,133 pemeriksaan premis perniagaan termasuk 833 peruncit, 268 pemborong dan 32 pengilang setakat kelmarin.

"KPDNHEP bersama Kementerian Pertanian dan Industri Makanan (MOA) juga sentiasa memantau bekalan makanan harian seperti beras, buah-buahan, sayur-sayuran, ikan, ayam, daging, telur dan susu segar di seluruh negara.

"Secara keseluruhan bekalan barangan keperluan mencukupi dan mampu menampung keperluan da-

lam negara yang berterusan," katanya.

Menurutnya, MOA juga memberi jaminan barang makanan basah seperti sayur-sayuran juga mencukupi.

Sementara itu, Ismail Sabri berkata, sebanyak 196 pusat kuarantin beroperasi berbanding 193 pada hari sebelumnya dengan jumlah keseluruhan 16,154 individu sedang menjalani proses kuarantin wajib, setakat 22 April lalu.

"Seramai 738 rakyat Malaysia pulang ke tanah air dan diarah menjalani kuarantin wajib, semalam.

"Sejak 17 April, 4,218 individu selesai menjalani tempoh kuarantin wajib dan dibenarkan pulang," katanya.

Selain itu, Polis Diraja Malaysia (PDRM) dan Suruhanjaya Komunikasi dan Multimedia Malaysia (SKMM) membuka 237 kertas siasatan berkaitan berita palsu Covid-19 berbanding 229 kertas siasatan hari sebelumnya.

Harga jualan Bernas kepada pemborong tidak berubah

SHAH ALAM - Harga jualan Padiberas Nasional Berhad (Bernas) kepada pemborong adalah kekal dan tidak berubah untuk beras putih tempatan dan beras import sejak beberapa tahun lalu.

Menurut satu kenyataan, walaupun harga beras di pasaran dunia telah meningkat berikutan wabak koronavirus (Covid-19), namun Bernas tetap komited untuk memantau serta memastikan harga pasaran beras kekal stabil.

“Sebarang lebihan harga kos atau operasi akan dibiayai oleh Bernas sendiri,” jelas kenyataan itu semalam.

Bernas berkata demikian sebagai merujuk laporan sebuah portal berita

dalam talian berhubung dakwaan Majlis Tindakan Ekonomi Melayu (MTEM) mengenai aduan Persatuan Pengilang Beras Melayu Malaysia (PPBMM).

PPBMM dan ahlinya yang terlibat dalam bidang pemborongan beras mengatakan mereka tertekan dengan kenaikan harga borong beras.

Bernas menjelaskan, kenyataan MTEM bahawa syarikat itu diberikan subsidi dan Kementerian Pertanian dan Industri Makanan (MOA) memonopoli beras import adalah tidak berasas.

Bernas turut memberi jaminan untuk memelihara kestabilan harga dan memastikan bekalan beras mencukupi.

Harga jualan beras kekal

Kuala Lumpur: Padiberas Nasional Berhad (BERNAS) menegaskan harga jualan beras putih tempatan dan import kepada pemborong kekal dan tidak mengalami kenaikan sejak beberapa tahun lalu.

BERNAS dalam kenyataan semalam, berkata walaupun harga beras di pasaran dunia meningkat berikutan wabak COVID-19, BERNAS tetap komited untuk memantau serta memastikan harga pasaran beras kekal stabil serta berpatutan.

“Sebarang lebihan harga kos atau operasi akan dibiayai oleh BERNAS. Ingin diperjelaskan di sini bahawa kenyataan Majlis Tindakan Ekonomi Melayu (MTEM) mengenai BERNAS diberikan subsidi selain Kementerian Pertanian dan Industri Makanan (MOA) memonopoli beras import adalah sangat tidak berasas,” katanya.

Kenyataan itu menjelaskan sehingga kini, BERNAS terus mengawasi perkembangan industri padi dan beras serta menjalankan obligasi sosial negara antaranya dalam sektor pengimportan beras, pengurusan dan pembayaran subsidi kepada petani, menguruskan Skim Pengilangan Padi Bumiputera.

Tackling food security at highest level

ALTHOUGH Malaysia ranked 28th out of 113 countries in the Global Food Security Index in 2019, we are still not comfortable with our standing. As at 2018, from the latest figure on self-sufficiency ratio (SSR) available, we only produced 11% of mutton, 24% of beef and 70% of rice for our consumption.

Our import bill for food in 2017 was RM51.3bil while we exported RM31.8bil, which is a shortfall of close to RM20bil a year. This makes us a food-dependent nation and puts a tremendous burden on our foreign exchange, as we have to spend so much just to feed ourselves.

With our vast areas of fertile and arable land, Malaysia should be a net food exporter instead of importer. We need a major shift in the way we use our land to make Malaysia self-sufficient in food supply.

We fully support the establishment of the Cabinet Committee on Food Security that would be chaired by Prime Minister Tan Sri Muhyiddin Yassin, as announced by Agriculture and Food Industries Minister Datuk Seri Dr Ronald Kiandee in "[Food reserve plans in the pipeline](#)" (The Star, April 19; online at <https://bit.ly/34Udq80>).

Food security is key to maintaining social, economic and political stability. The Covid-19 pandemic has exposed the gross inadequacies in our food production system and our over-dependence on imports.

Any successful endeavour in food production must apply the "bottom-up" approach with input from experts and industry players who understand the business of agriculture, not bureaucrats and certainly not politicians.

We need modern farming and aqua-culture methods developed through sound research and development capabilities.

National

Minister: Cabinet committee on food security to be set up

KUALA LUMPUR: A Cabinet Committee on Food Security, chaired by Prime Minister Tan Sri Muhyiddin Yassin, will be established soon to, among others, formulate the National Food Security Policy, says Minister of Agriculture and Food Industry Datuk Seri Dr Ronald Kiandee.

He said the agro-food sub-sector will be the main focus in the agriculture sector in order to achieve the agenda of improving Malaysia's food security and generating higher income for agriculture frontliners.

The focus would include strengthening the food supply chain, improving support and delivery services, enhancing technological knowledge and skills as well as promoting greater compliance to standards and good agricultural practices, he said in a statement on 'Food Security and Covid-19: The Way Forward' yesterday.

He said the ministry was planning for the post-Covid-19 period by looking at various medium- and long-term solutions to help the agriculture frontliners recover from the setback caused by the pandemic.

The ministry, he said, will also continue to play a more active role in searching for new market access while at the same time bringing in investors to create economies of scale in agriculture.

With the upcoming Twelfth Malaysia Plan (RMK-12) and National Agro-Food Policy (NAFP) 2.0, the government will continue to foster modernisation in the agro-food sub-sector by leveraging on Industrial Revolution 4.0 (IR4.0), he added.

He said this is to improve food security and safety by increasing productivity, generating higher income and attracting the younger generation of agropreneurs, which will ultimately increase the contribution of total agriculture value added to gross domestic product (GDP).

He noted that among the challenges in the country's agriculture sector were the low utilisation of mechanisation and automation, dependency on foreign workers, lack of private investment and funding, difficulty in accessing market, an unsustainable subsidy mechanism and lack of quality seeds and breeds.

"Another major hurdles towards achieving food security is our dependency on the imports of meats, vegetables and fruits from temperate regions has resulted in a deficit agro-food trade balance as we spend more than RM50 billion to import these (types of) produce," he said.

He added that the self-sufficiency level (SSL) for fruits is now at 78.4 per cent, while the SSL for vegetables is at 44.6 per cent and for meat products, 22.9 per cent.

Kiandee called for a paradigm shift in agriculture where it should no longer be viewed as a 3D (dirty, dangerous, difficult) industry, adding that the involvement of the younger generation was the key towards bringing in IR4.0 and modernising the agriculture sector in Malaysia through the adoption of the latest technologies and techniques.

He said that only 8.5 per cent of farmers are under the age of 40 and so far the Young Agropreneur Programme under the ministry has produced more than 5,000 entrepreneurs.

He also advised the people to refrain from panic buying or stock-piling as the ministry was doing its best to keep the food supply chain intact during the Movement Control Order (MCO) period.

He reminded Malaysians to acknowledge the efforts of frontliners, including those in the agriculture sector such as farmers, fishermen and food producers who are putting themselves at risk to ensure continuity of food supply during the pandemic. — Bernama

'Adequate supply of food and other essentials'

PUTRAJAYA: There is adequate supply of food products and other basic necessities to meet the demands throughout the country, including during the Ramadan period, said Senior Minister (Security Cluster) Datuk Seri Ismail Sabri Yaakob.

Ismail Sabri, who is also Defence Minister, hoped that the people would plan their Ramadan shopping to avoid over-crowding at any premises and also to abide by the social distancing regulations.

"The people are advised not to worry about the supply of food and daily necessities for Ramadan as there is enough," he said at a daily news conference on the Movement Control Order (MCO) here yesterday.

Ismail Sabri said the Domestic Trade and Consumer Affairs Ministry had conducted daily checks on the supply of 25 types of goods at 1,133 business premises comprising 833 retailers, 268 wholesalers and 32 factories.

This was to ensure that there were enough supplies and the people would not have to worry or rush to buy food during the MCO period, he added.

Ismail Sabri assured the people that the regular monitoring done by the Domestic Trade and Consumer Affairs Ministry and the Agriculture and Food Industry Ministry showed that there was enough supply of wet goods and other basic necessities to meet the people's demands.

On another matter, Ismail Sabri said the distribution of food aid contributed by corporate companies and non-governmental organisations (NGOs) was being coordinated by the authorities.

"We are taking action (on this matter). We will streamline the contributions and give them to the (affected) residents," he added.

He was commenting on the process of distributing food aid to residents of Taman Seri Murni in Selayang after the area was placed under the Enhanced Movement Control Order (EMCO) on Monday.

There were allegations that the residents were worried that their daily supply of goods especially food was running low.

Fama, Nekmat tawar produk di Shopee

Kuala Lumpur: Golongan petani dan nelayan di negara ini terus mendapat sokongan daripada penjualan atas talian melalui kerjasama Lembaga Pemasaran Pertanian Persekutuan (Fama) dan Persatuan Nelayan Kebangsaan (Nekmat) dengan platform e-dagang terkemuka, Shopee.

Fama, Nekmat, Lembaga Kemajuan Ikan Malaysia (LKIM) dan Shopee bekerjasama secara eksklusif melancarkan kedai rasmi Fama (Agrobazaar_FAMA) dan Nekmat di Shopee bagi membolehkan hasil segar serta makanan laut dari petani dan nelayan dihantar terus kepada rakyat.

Langkah ini susulan kejayaan pelancaran segmen hasil segar di Shopee pada Februari lalu yang menyaksikan platform e-dagang itu menggunakan teknologi untuk penjualan dan pengedaran hasil segar secara atas talian.

Pengarah Kanan Perkhidmatan Pemasaran Industri Berasaskan Agro Fama, Wan

★★★

Melalui kerjasama ini kami percaya orang ramai boleh mendapatkan pelbagai ikan dan makanan laut segar"

Azrin Shah

Faizatul Aniza Ismayatim berkata, di kedai Fama, pengguna dapat membeli pelbagai hasil pertanian se-

perti ayam, sayur-sayuran dan buah-buahan.

"Kerjasama Fama dan Shopee kaedah yang bagus membantu pengguna mendapatkan barangan mereka secara atas talian pada bila-bila masa dan kami menerima sambutan menggalakkan," katanya pada sidang media maya Raya Bersama Shopee di sini, semalam.

Sementara itu, Pengurus Besar Nekmat, Azrin Shah Ismail berkata, pihaknya komited menawarkan maka-

nan laut segar terus kepada pelanggan melalui platform Shopee.

"Sememangnya, pendapatan nelayan agak terjejas sejak Perintah Kawalan Pergerakan (PKP) dilaksana. Oleh itu, melalui kerjasama ini kami percaya orang ramai boleh mendapatkan pelbagai ikan dan makanan laut segar," katanya.

Penghantaran kini dibuka untuk penduduk Lembah Klang di mana pembeli yang membuat pesanan mereka dari kedai-kedai ini sebelum pukul 12 tengah hari akan menerima produk mereka pada hari berikutnya (kecuali hujung minggu dan cuti umum).

Kecemerlangan operasi ini penting kerana isi rumah memerlukan barang-barang ini dihantar dengan cepat kepada mereka.

Shopee terus menyokong inisiatif ini dengan Pakej Bantuan Peniaga bernilai RM15 juta dilancarkan baru-baru ini untuk membantu PKS mengatasi cabaran perniagaan akibat Covid-19.

Sementara itu, Pengurus Besar Nekmat, Azrin Shah Ismail berkata, pihaknya komited menawarkan makanan laut segar terus kepada pelanggan melalui platform Shopee.

"Sememangnya, pendapatan nelayan agak terjejas sejak Perintah Kawalan Pergerakan (PKP) dilaksana. Oleh itu, melalui kerjasama ini kami percaya orang ramai boleh mendapatkan pelbagai ikan dan makanan laut segar," katanya.

Penghantaran kini dibuka untuk penduduk Lembah Klang di mana pembeli yang membuat pesanan mereka dari kedai-kedai ini sebelum pukul 12 tengah hari akan menerima produk mereka pada hari berikutnya (kecuali hujung minggu dan cuti umum).

Kecemerlangan operasi ini penting kerana isi rumah memerlukan barang-barang ini dihantar dengan cepat kepada mereka.

Shopee terus menyokong inisiatif ini dengan Pakej Bantuan Peniaga bernilai RM15 juta dilancarkan baru-baru ini untuk membantu PKS mengatasi cabaran perniagaan akibat Covid-19

#TECH: Shopee launches Raya campaign

© Provided by New Straits Times Launch of Raya Bersama Shopee.

KUALA LUMPUR: Online shopping platform Shopee has launched a curated a campaign called Raya Bersama Shopee, which is designed to offer things for Ramadan and Raya, in line with its campaign tagline Raya Ini Shopee Di Sisimu.

Taking place from today until May 26, 2020, the campaign offers daily essentials from as low as just RM10 for a variety of everyday necessities such as Milo, dates, chicken, fish, beef, rice and cooking oil to home appliances like blenders and clothing such as "telekung". At the same time, users will get to enjoy free shipping with a minimum spend of RM19 so Malaysians can get what they need

without breaking the bank.

The launch, which was done online, was also joined by representatives from the Federal Agricultural Marketing Authority (Fama), National Fishermen's Association (Nekmat) and Malaysian Medical Association (MMA), to talk about how their organisations collaborate with Shopee to help the people get daily food supply easier.

The campaign also features four very special days - Jualan Hebat Raya on April 23 and 24, and Pesta Jualan Raya on May 14 and 15, with discounts up to 80 percent, RM1 deals on favourite items and lowered free shipping with minimum spend of RM10 from 12AM to 2AM.

The company says its Salam by Shopee feature is designed to make browsing and shopping easy for those in search for halal products, prayer items, wudhu-friendly cosmetics, Muslim fashion and many more. Salam by Shopee boasts deals, offers and vouchers as well as:

Koleksi Terkini: Latest collection of items from across categories based on weekly themes to help shoppers in their Raya planning.

Resipi Raya: Recipes on mouth-watering delicacies to inspire users to put on their Chef's hat, along with the convenience of finding ingredients.

Pilihan Halal: This section features items by Halal-certified brands to provide ease to those searching for Halal products.

Azan: Reminders on prayer times can now be made in-app for the convenience of Muslim users.

Derma: Users who want to give back to society during this Ramadan can make their donations to charity organisations all in one place. From non-profit organisations like MERCY, Islamic Aid Malaysia and MAKNA to NKF, one such effort is the Shopee MMA Covid-19 Fund that users can also donate to. To-date, Shopee has raised funds of over RM450,000 for the Malaysian Medical Association Foundation to help medical frontline workers who are one of the highest risk groups, working overtime and sacrificing their lives to keep everyone safe.

Besides that, Shopee also aims to bring entertainment and the joy of Hari Raya to its users via a safe space at home:

Shopee Live: Catch exciting content specially curated for users such as food shows, daily workout session by fitness experts, and other Muslim-related content including Quran-reading classes. Shopee Live will also be airing entertainment show MeleTOP that features songs, movies, parodies and the latest gossip. Catch it on 21 and 28 April, and 5 and 12 May at 9pm.

Shopee Games: Memorise dance moves in Joget Shopee; catch kuih-muih in Shopee Tangkap and play crowd-favourites Goyang Shopee, Shopee Throw, Lucky Raya and One or Not with the family to win Shopee coins, vouchers and even 43-inch televisions.

Duit Raya: While it may be difficult to give Duit Raya to loved ones this time around, Shopee has created a fun, safe and easy way for users to give e-Duit Raya via its ShopeePay e-wallet.

"The Ramadan and Hari Raya period is a special time filled with forgiveness and blessings. While this Raya may be slightly different, we hope that the Raya Bersama Shopee campaign will give Malaysians the opportunity to have an affordable yet unforgettable and meaningful celebration," said Ian Ho, Regional Managing Director of Shopee.

"Earlier this month we launched a RM15 million Seller Support Package to assist Malaysian businesses. Now, this campaign will centre around Malaysian consumers to help them through this difficult time by providing them with greater value deals. Ultimately, what we hope most for is that this would provide some level of comfort to all Malaysians that we are here for, and with them," he added.

The Raya Bersama Shopee campaign is anchored by Malaysians' favourite brands - Nestle, Nestle Nutrition, P&G, Unilever, Enfagrow, Friso Gold, Pediasure, Vinda, L'Oreal, Wipro Unza, Mentholatum, Beiersdorf, Elanware, Mr DIY, Photobook Malaysia, Arctic Hunter, realme, Black Shark, Skechers, Bagstation, Voir, Carlo Rino and Lim Tayar.

Govt grants lifeline to young agropreneurs

The Young Agropreneur Programme aims to encourage the involvement of youths in entrepreneurial activities in the agricultural sector's value chain

by ALIA SITI KHADIJAH AZHAR

K RAMANA has never looked back since he gave up his high-paying job as a commercial airline pilot last year to pursue an agricultural venture.

Why should he have any regrets when he is now raking in a handsome seven-digit income from his animal feed production business.

Ramana, 30, is among the successful participants of the Ministry of Agriculture and Food Industries (MAFI) Young Agropreneur Programme that was implemented in 2016 for youths aged between 18 and 40 under the 11th Malaysia Plan.

With the help of the ministry, which offered him machinery and guidance, Ramana — who is the founder and MD of Famov Plantation (M) Sdn Bhd based in Merbok, Kedah — ventured into maize cultivation after he was convinced of the agriculture sector's lucrative returns.

"I know agriculture is not the choice of most youths, but this must change because agriculture has very good prospects," he told *Bernama* when met during the ministry's northern zone Young Agropreneur Exploration (JAM) programme that took place between March 13 and 15.

Ramana, who is from Bedong, Kedah, is also cultivating cassava — a starchy tuber — and rearing cattle on his 58ha maize plantation to optimise returns from his land throughout the year. The maize and cassava harvested from his plantation are used for the production of animal feed.

This young agropreneur's commitment to making a success of his venture has earned him various awards, including the Young Agricultural Icon 2018/2019 (Plantation) award.

Change in Perception

According to MAFI deputy secretary general (policy) Datuk Haslina Abdul Hamid, more than 5,000 young agropreneurs have received non-monetary grants under the Young Agropreneur Programme. The grants, some of which are worth up to RM200,000, are given in the form of machinery, seeds, ani-

A young agropreneur's farm in Penang seen using the hanged fertigation technology. An expert says the involvement of more youths in agricultural activities will help reduce the unemployment rate.

"I know agriculture is not the choice of most youths, but this must change because agriculture has very good prospects," says Ramana

mal breeds and advisory services, which have helped the participants develop their ventures and penetrate international markets and reap profits.

"Some of the young agropreneurs, who participated in our programme, are now earning much more than what they used to get before," she said.

Haslina also noted that their success has helped change the general perception towards agriculture and youths are now viewing it as a viable sector.

The Young Agropreneur Programme is aimed at encouraging the involvement of youths in entrepreneurial activities in the agricultural sector's value chain, such as plantations, livestock farming, fishery, agro-based industries, marketing, support services and agro-tourism.

On the JAM programme, Haslina said this is the second year of its implementation and it is aimed at monitoring the projects of its Young Agropreneur Programme's participants and looking into their needs, in terms of advisory, technical and other services.

During the recent northern zone edition of JAM, the ministry's focus was on nine participants in Penang, Kedah and Perlis.

"We encourage them to continue driving the industry," she said,

adding that the ministry is targeting 1,200 youths for its Young Agropreneur Programme this year.

Due to the Covid-19 crisis, the ministry has postponed its JAM programmes in other parts of the country.

Overcoming Challenges

In conjunction with the recent northern zone JAM programme, the Muda Agricultural Development Authority (MADA) conducted

a two-day course for young agropreneurs who were taught the intricacies of running a business and how to meet the challenges that will come their way.

MADA GM Datuk Fouzi Ali said the involvement of more youths in agricultural, livestock farming and agro-based activities will help reduce the unemployment rate.

"We hope our future generation will be more knowledgeable and take more interest in this (agricul-

tural) field because they will not only be able to generate an income for themselves, but also for the nation," he added.

One of the course participants, Mohd Amir Farhan Mohd Zari, 23, who recently embarked on a hybrid cattle rearing project, said he learned a lot from the course.

"I'm still new in this field, but I'm already planning to expand my cattle rearing business," said Mohd Amir Farhan, who now has a bull and three cows on his farm.

He said not many youths were aware of the grants offered by MAFI.

"As for me, it was only after I joined the agricultural sector that I found out the ministry, through its agencies, was ever ready to help (agro-based) entrepreneurs, particularly youths, and encourage them to be successful in their ventures," he added.

Export Market

G Devanalaran, 30, is another success story of the Young Agropreneur Programme. His food processing company Malayan Food Venture — based in Bagan Ajam, Butterworth — produces enzymatic *dodol*, a popular local delicacy to which an enzyme is added to increase its shelf life to up to a year.

His company generates sales to the tune of RM250,000 a month, thanks to the machinery and advisory services he received from the Malaysian Agricultural Research and Development Institute (MARDI) as it helped him boost productivity and penetrate the international market.

"I learned the technology for the enzymatic *dodol* making process from MARDI and this enabled me to export my product to the United Arab Emirates, Singapore, China, Indonesia, and even Mexico and the US," said Devanalaran, whose company also produces 20 other food products such as jam and *papilion*.

Md Zubairu Samat, 37, who operates *kelulut* or stingless bee farms, also benefitted from the Young Agropreneur Programme. Starting with five colonies, he now has 150 colonies of *kelulut* of the *thana*, *theracina* and *ternatana* species.

The grant from the ministry came in the form of 15 colonies of stingless bees, machinery and a refrigerator which he received in 2016.

"The incentives from the government helped me produce higher quality *kelulut* honey," said Md Zubairu, who now has three *kelulut* farms located in Kepala Batas and Guar Perabu in Penang and Kupang, Kedah — *Bernama*.

Terengganu bantu 557 penternak ikan

KUALA TERENGGANU - Kerajaan Terengganu menyediakan peruntukan sebanyak RM115,800 untuk bantuan makanan ikan air tawar melibatkan 557 penternak berdaftar di seluruh negeri.

Exco Pertanian, Industri Asas Tani dan Pembangunan Desa Terengganu, Dr Azman Ibrahim berkata, langkah itu diambil kerajaan bagi membantu golongan yang terkesan akibat penularan koronavirus (Covid-19).

“Kerajaan negeri sedia maklum beban yang ditanggung penternak ikan sama ada penternak sangkar atau kolam ketika tempoh Perintah Kawalan Pergerakan (PKP) ini disebabkan ruang pasaran yang terlalu terhad.

“Dalam masa yang sama penternak perlu menanggung kos makanan ikan setiap hari sehingga ramai dalam kalangan mereka mengadu telah kehabisan modal pusingan.

“Kerajaan memutuskan untuk membantu seramai 577 penternak ikan air payau dan ikan air tawar yang berdaftar dengan Jabatan Perikanan Terengganu di semua daerah untuk menerima sumbangan bentuk bantuan makanan ikan berjumlah RM200 seorang melibatkan kos keseluruhan RM115,800,” katanya dalam satu kenyataan di sini semalam.

Bangkai ikan lumba-lumba terdampar di Pantai Serandu

FOTO: JABATAN PERIKANAN PAHANG

Kakitangan Jabatan Perikanan menanam bangkai ikan lumba-lumba berhampiran Pantai Serandu kelmarin.

PEKAN - Seekor ikan lumba-lumba ditemui mati terdampar di Pantai Serandu di sini petang kelmarin.

Pengarah Jabatan Perikanan Pahang, Abdullah Jaafar berkata, pihaknya menerima aduan daripada orang awam berkaitan penemuan bangkai ikan itu.

“Hasil siasatan mendapati ikan lumba-lumba itu sepanjang 244 sentimeter dan berat anggaran 170 hingga 200 kilogram.

“Bagaimanapun janti-

na ikan dari spesis *Indo-Pacific humpbacked dolphin (sousa chinensis)* itu tidak dapat dikenalpasti,” katanya di sini semalam.

Beliau berkata, punca kematian ikan lumba-lumba tersebut tidak dapat dikenalpasti.

“Siasatan mendapati badan ikan mulai mereput dan dijangka telah mati kurang tempoh seminggu,” katanya.

Abdullah berkata, bangkai ikan tersebut ditanam berhampiran pantai berkenaan.

Tiada jualan durian Balik Pulau di tepi jalan

Tung Seang (tiga dari kiri) ketika mengunjungi penjual dan pekebun durian di Bukit Karuna, Balik Pulau semalam.

Penggemar durian di Pulau Pinang boleh mendapatkan buah itu di pasar awam yang ditetapkan MBPP

Oleh SYAJARATULHUDA
MOHAMAD ROSLI

BALIK PULAU

Musim durian di Pulau Pinang tahun ini berbeza berbanding tahun sebelumnya apabila semua gerai tepi jalan yang menjual raja buah itu tidak dibenarkan beroperasi ketika Perintah Kawalan Pergerakan (PKP) ketika ini.

Bagaimanapun kata Datuk Bandar Majlis Bandaraya Pulau Pinang (MBPP), Datuk Yew

Tung Seang, penggemar durian boleh mendapatkannya di gerai yang disediakan di pasar awam berdekatan.

Menurutnya, MBPP menyediakan 254 gerai durian di sembilan pasar basah seluruh kawasan pulau untuk peniaga dan pekebun menjual durian.

Katanya, antara lokasi gerai-gerai itu adalah di Farlim, Air Itam, Paya Terubong, Jalan Permai dan beberapa lagi.

“Kesemua gerai itu ditawarkan kepada semua peniaga dan pekebun yang berdaftar. Oleh kerana mereka tidak dibenarkan menjual di gerai tepi jalan, kita menyediakan alternatif lain iaitu menyediakan gerai di sembilan pasar basah untuk mereka beroperasi.

“MBPP akan membuka pendaftaran untuk mereka memohon bagi membolehkan penjualan durian dijalankan di bawah inisiatif *Business From Farm* (BFF). Pendaftaran akan dibuka

bermula jam 12 tengah hari hari ini (semalam) sehingga jam 12 tengah hari 28 April.

“Sewa sebanyak RM7 dikenakan setiap hari untuk setiap gerai manakala caj RM200 setiap bulan untuk perkhidmatan mengutip kulit durian,” katanya pada sidang akhbar di dusun durian Bukit Karuna di sini semalam.

Tung Seang berkata, orang awam tidak dibenarkan ke kebun durian di Balik Pulau untuk membeli buah-buahan itu sepanjang PKP ini.

“Pekebun dan penjual durian dinasihatkan menjualnya secara dalam talian dan menghantarnya sendiri ke pelanggan mereka.

“Selain itu, mereka boleh mendaftar di Jom Beli Online@MBPP untuk menjual hasil pertanian mereka itu. Malah pada waktu ini, kira-kira 20 penjual durian sudah menjual secara atas talian di pelbagai platform media sosial,” kata nya.

'Ambillah seberapa banyak timun di ladang saya'

Yusof bersama timun yang diberikan percuma kepada orang ramai.

JERANTUT - Seorang pengusaha ladang timun di Ulu Cheka di sini menawarkan hasil tanaman tersebut secara percuma kepada orang ramai.

Yusof Lang Buana, 60, menawarkan timun secara percuma berikutan lambakan hasil tanaman itu akibat tidak dapat menjualnya kepada pemborong berikutan Perintah Kawalan Pergerakan (PKP).

"Sehingga kini lebih satu tan lambakan timun di ladang yang seluas kira-kira 0.8 hektar.

"Memandangkan saya pun tidak dapat menjual timun kepada pemborong selain beberapa masalah seperti kos dan kekangan pergerakan, jadi saya fikir daripada membazir lebih baik saya bagi sahaja kepada orang ramai," katanya kepada Sinar Harian.

Lambakan timun yang boleh diambil secara percuma.

Menurutnya, orang ramai boleh memetik sendiri buah tersebut di ladangnya atau mengambil timun yang diletakkan di kedai- kedai runcit di kampung itu.

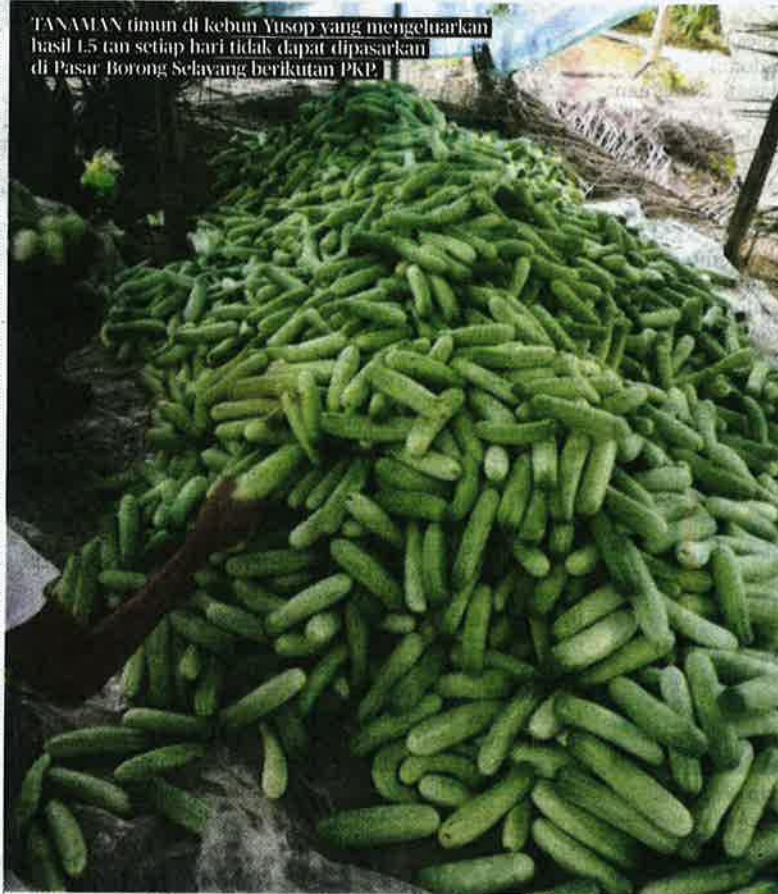

"Timun di ladang itu boleh bertahan kira-kira seminggu lagi sebelum ia terlalu masak dan tidak sesuai dimakan.

"Tiada had, ambil dan petik di ladang saya hingga habis selagi ada boleh ambil. Buat masa ini saya memang telah hentikan segala pengeluaran dan memetik buah itu.

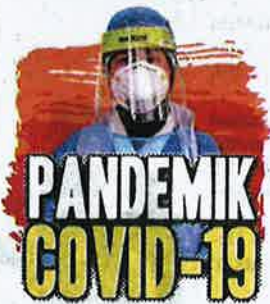

"Walaupun rugi tetapi saya akur dengan musim koronavirus (Covid-19) bukan sahaja berlaku di Malaysia tapi banyak negara hadapi situasi sama," katanya yang mula mengusahakan tanaman itu pada Februari lalu.

Katanya, dia hanya sempat menjual sehingga dua tan hasil tanaman itu kepada pemborong dan peraih sebelum perintah PKP dikuatkuasakan.

TANAMAN timun di kebun Yusop yang mengeluarkan hasil 1.5 tan setiap hari tidak dapat dipasarkan di Pasar Borong Selayang berikutan PKP.

YUSOP di kebun timun miliknya.

Oleh Roselan Ab Malek
arn@hm@metro.com.my

Jerantut

"Ini juga satu sedekah," kata pekebun sayur Yusop Itam, 60, yang mengizinkan mana-mana pihak untuk mengambil timun di kebunnya secara percuma.

Dia yang mempunyai kebun timun di tanah berkeluasan 0.8 hektar dekat Kampung Ulu Cheka di sini membenarkan mana-mana

Timun percuma sempena PKP

Yusop enggan buang hasil tak dapat dipasarkan

penduduk untuk ke kebunnya dan memetik sendiri sayuran itu.

Katanya, sejak Perintah Kawalan Pergerakan (PKP) dikenakan timun itu tidak dapat dipasarkan ke Pasar Borong Selayang disebabkan ketiadaan lori dan hanya sempat jual dua tan saja.

"Jadi, boleh datang ke kebun timun saya dan boleh ambil sendiri berapa banyak pun kerana semuanya percuma. Saya izinkan.

"Jika ada yang mahu mendapatkannya secara percuma

di kedai runcit anak saya pun boleh, ia terletak di Tanjung Puteri," katanya di sini, semalam.

Beliau berkata, kebunnya menghasilkan antara satu ke 1.5 tan timun setiap hari sejak ditanam awal Februari lalu menerusi empat pekerja.

"Disebabkan itu, saya buat keputusan beri percuma saja timun ini kepada sesiapa yang memerlukan daripada membiarkan ia rosak begitu sahaja," katanya.

Menurutnya, dia tidak

menyangka wabak Covid-19 melanda dan berlarutan hingga hari ini yang menyebabkan semua timun sukar dipasarkan.

"Timun di kebun itu boleh bertahan kira-kira seminggu sebelum ia terlalu masak dan tidak sesuai dimakan dan ketika ini, saya sudah menghentikan segala pengeluaran dan memetik.

"Walaupun rugi tetapi saya akur kerana ini fenomena melanda dunia bukan di Malaysia saja. Saya reda," katanya.

PEKEBUN sayur, Yanti Mumin, 50, melakukan kerja di kawasan tanaman sayur Montoki Kundasang, Sabah pada hari ke-36 Perintah Kawalan Pergerakan (PKP) bagi membendung penularan Wabak Covid-19. Sektor pertanian adalah antara yang dibenarkan beroperasi semasa PKP bagi memastikan bekalan makanan negara mencukupi.

MEKANIK orang kelainan upaya (OKU) yang cacat penglihatan sejak dilahirkan, Azhar Ibrahim, 37, menunggu pelanggan di bengkelnya di Kampung Batu Enam, Batu Gajah, Perak semalam.

PERAIH getah Mohd Iqram Mohd Raffi, 25, menjemur getah sekerap yang dibeli daripada penoreh getah sekitar Kampung Lebu, Bentong, semalam. Kementerian Perusahaan Perladangan dan Komoditi (MPIC) menyatakan tiga kumpulan dalam sektor getah diberikan kelonggaran beroperasi sepanjang Perintah Kawalan Pergerakan (PKP) dilaksanakan.

WAKIL media merakam gambar raja buah iaitu buah durian semasa melawat dusun durian, Karuna Hill, Sungai Pinang, semalam. Datuk Bandar Majlis Bandaraya Pulau Pinang (MBPP), Datuk Yew Tung Seang yang membuat lawatan ke dusun berkenaan meminta pekebun durian menjalankan perniagaan durian secara terus dengan menghantar bekalan kepada pemborong atau peruncit di gerai pasar dan pasar raya. Pekebun durian juga digalakkan menjalankan perniagaan dalam talian. Katanya lagi, pekebun durian perlu memohon kad pergerakan bagi penghantaran durian kepada pelanggan melalui pautan Facebook MBPP dan laman web MBPP. Menurut Yew, penjualan durian di tepi jalan dan kedai makan adalah tidak dibenarkan.

設首相為首委會 制定糧食安全政策

■ 罗南建迪

（吉隆坡22日讯）农业及食品工业部长拿督斯里罗南建迪指出，内阁近期将设立由首相丹斯里慕尤丁为首的粮食安全委员会，以制定国家粮食安全政策。

他说，农业食品将成为农业的主要重点，以实现改善大马粮食安全和为农业前沿人士创造更高收入的议程。

他今日在文告指出，政府

的重点包括加强食品供应链、改善支持和交付服务、促请技术知识和技能，及促进对标准和良好农业规范的遵守。

罗南建迪也说，农业部正制定中长期解决方案，协助农业前沿人士在疫情结束后恢复过来。

他强调，政府会继续利用工业革命4.0来推动农业现代

化，而通过提高生产力、创造高收入及吸引年轻农业企业家的加入，将有助改善国内的粮食安全问题。

他也提到，我国对外国食品的进口依赖也是实现粮食安全的主要障碍，指大马花多500亿令吉进口这些产品，造成农业食品出现贸易逆差。

吴子联：供应充足 从其他国家进口白米

报道：叶中健

(布城 22 日讯) 我国白米大约 30% 是依赖进口，尽管东盟一些国家在封锁后限制或禁止白米出口，不过，大马还可以通过其他国家进口白米。

米粮批发商说，国内目前的白米供应量依然充足，暂时没有受到影响或出现需求紧张的状况。

大马米粮批发商公会会长吴子联向《南洋商报》说，我国目前的米粮产量如常，没有受到行动管控指令影响，还可以供应 70% 国内市场。

“至于 30% 的进口米粮在市场也没有出现中断的问题，所有白米在市场供应与价格，包括进口的白米都保持稳定。”

他说，越南及泰国等主要

吴子联

白米出口国，禁止出口只是暂时性，毕竟出口白米是它们国家收入的主要来源，疫情缓和后，这些国家还是会继续出口白米。

“我国一般上从有关国家进口多种优质的白米，如香米，它的价格没有如本地白米受统制，所有价格比较高。”

白米库存足够

提到负责进口白米的国家稻米公司，吴子联说：“我们并不知道国家稻米公司库存有多少白米，但是，从市场白米的供应情况，我们推测短期内白米供应不会有太大的问题。”

联合国粮食及农业组织最近发布的一份报告中警告，全球粮食供应链可能在冠状病毒疫情恶化下，在 4 月和 5 月受到干扰。

疫情蔓延全球以来，多个农产品出口国开始限制粮食出口，越南政府在一份声明中表示，在 3 月 28 日之前禁止签署任何新的大米出口合同。

东南亚另一个主要白米出口国柬埔寨也做出类似决定。首相洪森 3 月 30 日宣布柬埔寨从 4 月 5 日起暂停出口白米和稻谷，但允许出口香米。

针对我国白米的供应情况，农业及食品工业部第二副部长拿督仄阿都拉在 4 月初发表声明，国内每个月的米粮消耗量是 20 万公吨，如今市面上有约 50 万公吨的米粮，国内米粮供应还在受控范围，国内米粮依然充足。

据国家稻米局的资料，大马的白米需求量至少 185 万公吨，其中本地生产 110 万公吨，进口 75 万公吨白米。
