陈泓缜：大力发展食品工业 鼓励果农生产榴梿产品

(吉隆坡 26 日讯) 农业及粮食安全部致力于继续以各种形式，推广我国的榴梿出口到世界各国，除了采集和出口榴梿鲜果，也鼓励果农多元化生产榴梿制产品，以增加收入及提高竞争力。

农业部副部长陈泓缜昨天在国会，回答行动党劳工国会议员邹宇晖有关大马榴梿出口市场的提问时，如此表示。

“除了专注以鲜果和冷冻方式出口榴梿，农业部也着重榴梿的下游产

业，以大力发展食品工业领域。

“到目前为止，我国所出口的榴梿制成品包括榴梿蛋糕、华夫饼、榴梿口味的巧克力、饼干、冰淇淋等。”

陈泓缜指出，根据农业局截至今年 5 月的数据，全国共有 44 间榴梿冷冻加工厂取得中国海关总署的出口准证，当中 41 间负责加工榴梿为纯果肉及果泥；其中的 20 间加工厂获批以全果方式出口。

与中国协商出口榴梿鲜果

农业部与农业局正在与中国海关总署进行协商，以取得榴梿鲜果（非冷冻）的输华许可。

陈泓缜透露，这是继

政府于今年 3 月取得中国许可，对华出口菠萝蜜鲜果后的后续行动。

惟他坦言，若要出口榴梿鲜果，榴梿在室温下

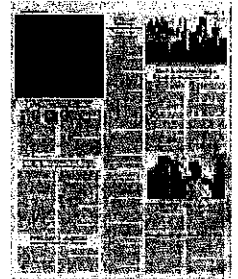

陈泓缜（中）曾前往中国参观当地的榴梿体验馆。

的保质期会是需要面对的技术挑战，以确保榴梿在抵达中国时依然维持其鲜度和品质。

“与邻国相比，我国榴梿是在树上成熟，从高处自然掉落之后才收集和

销售。所以，榴梿果的保质期相对地短，难以用鲜果方式出口到较远的国家，如中国。基于如此，我国才会采用急速冷冻（液氮冷冻技术），以确保榴梿可长时间保存。”

Filipino fined for having poison to catch fish

Jo Ann Mool

KOTA KINABALU: A Filipino fishing boat captain was fined RM5,000 or four months' jail, Friday, for having poison to catch fish.

Miguel Ompad Amit, 32, pleaded guilty before Sessions Court Judge Elsie Primus to having two packs of poison for the purpose of using it to catch fish at 5pm on March 17 this year inside a fishing vessel at Pulau Mengalum, near here.

The offence under Section 26(1)(c) of the Fisheries Act 1985 and punishable under Section 25(b) of the same Act read together with Section 34 of the Penal Code which provides for a fine of up to RM20,000, or a jail term of up to two years, or both, on conviction.

MMEA Deputy Public Prosecutor Nurun Nazifah Muhammad Iyan in presenting the facts of the case, informed the court that the enforcement unit during Ops Khas inspected a suspicious fishing boat about 13 nautical miles west, Pulau Mengalum.

It was later found that Miguel was the boat captain who has control over two packs of poison found in the boat, the

AT THE COURTS

court heard.

The poison sample was sent to the Chemistry Department for verification on May 12 and the report received three days later confirmed that it was Sodium Cyanide, said Nurun.

According to the prosecution, the Sabah Fisheries Department has stated that the use of Sodium Cyanide is prohibited in fishing activities due to its implications that can affect the marine ecosystem and affect health.

Miguel, a passport holder, who was on bail, applied for leniency as he has three children and has a valid passport.

Miguel said he used poison as it was easier to catch fish and that the boat belongs to his employer.

"My boss does not know I used poison, he only knew it when I was arrested," said Miguel.
