Kembara Media MOA promosi industri agromakanan Sabah

Kundasang: Kementerian Pertanian dan Industri Asas Tani (MOA) menganjurkan program Kembara Media MOA 2019 selama tiga hari di Sabah, bermula semalam hingga esok.

MOA dalam satu kenyataan, semalam, berkata program itu dijayakan 60 peserta membabitkan pegawai kementerian, pegawai perhubungan awam dari pelbagai jabatan dan agensi bawah kementerian berkenaan, serta pengamal media.

Program julung kali diadakan itu akan menjelajah beberapa daerah bagi mempromosi dan memberi publisiti meluas kepada industri agromakanan dan pertanian di negeri ini.

Selain itu, ia menjadi medium untuk prapublisiti Hari Peladang, Penternak dan Nelayan Kebangsaan (HPPNK) 2019 serta Pameran Pertanian, Hortikultur dan Agropelancongan Malaysia (MAHA) 2020.

Menteri Pertanian dan Industri Asas Tani, Datuk Salahuddin Ayub, dan Timbalannya, Sim Tze Tzin, serta Ketua Setiausaha kementerian, Datuk Mohd Sallehhuddin Hassan, turut hadir di beberapa lokasi terpilih dalam program itu.

Antara lokasi dilawati ialah Projek Ternakan Lembu Tenusu di Desa Cattle Dairy Farm Kundasang, Ranau; Projek Penanaman Padi di Kampung Tambatuon, Kota Belud; dan Projek Ternakan Kolam Udang Sunlight Inno Seafood, Pitas.

Selain itu, Projek Tangkapan Ikan Pari di Kota Marudu; Projek Perladangan Datuk Yap Yun Fook, Keningau; dan Projek Bot Transformasi Lembaga Kemajuan Ikan Malaysia (LKIM), Kuala Penyu.

Kembara Media MOA terokai industri pertanian, agromakanan Sabah

RANAU: Kementerian Pertanian dan Industri Asas Tani (MOA) kelmarin memulakan Program Kembara Media MOA di Sabah selama tiga hari bagi menerokai pembangunan industri pertanian dan potensi agromakanan di negeri ini.

Menurut kenyataan media MOA, program julung kali dianjurkan itu melibatkan seramai 60 peserta terdiri daripada pegawai kementerian, pegawai perhubungan awam daripada jabatan dan agensi kementerian serta pengamal media Sabah.

Program kembara itu akan menjelajah beberapa daerah di Sabah bagi mempromosi dan memberi publisiti secara meluas terhadap industri agromakanan dan pertanian di negeri ini.

"Selain itu, ia juga akan menjadi medium untuk prapublisiti Hari Peladang, Penternak dan Nelayan Kebangsaan 2019 dan Pameran Pertanian, Hortikultur dan Pelancongan Agro Antarabangsa 2020," menurut kenyataan itu di sini, kelmarin.

Antara lokasi dilawati ialah Projek Ternakan Lembu Tenusu di Desa Cattle Dairy Farm Kundasang, Ranau; Projek Penanaman Padi di Kampung Tambatuon, Kota Belud; Projek Ternakan Kolam Udang, Sunlight Inno Seafood di Pitas.

Para pengamal media turut dibawa menerokai Projek Tangkapan Ikan Pari di Kota Marudu, Projek Perladangan Datuk Yap Yun Fook di Keningau dan Projek Bot Transformasi Lembaga Kemajuan Ikan Malaysia di Kuala Penyu.

Menteri Pertanian dan Industri Asas Tani, Datuk Salahuddin Ayub serta timbalannya Sim Tze Tzin dan Ketua Setiausaha MOA Datuk Mohd Sallehhuddin Hassan turut hadir di beberapa lokasi terpilih yang akan dilawati dalam program ini.-Bernama

MOA-media road trip to explore Sabah agriculture, agro-food industry

RANAU: The Ministry of Agriculture and Agro-Based Industry (MOA) yesterday launched a three-day media road trip programme to Sabah to explore the development of the agriculture industry and the potential of agro-foods in the state.

According to a statement by the MOA, the inaugural programme involved 60 participants comprising officials from the ministry and public relations officers in the departments and agencies as well as media practitioners in Sabah.

The trip will explore several districts in Sabah to promote and publicise the agro-food and agriculture industry in the state.

"Apart from that, it will also be a pre-publicity platform for the 2019 National Farmers, Breeders and Fishermen's Day (HPPNK2019) and the 2020 International Agriculture, Horticulture and Agrotourism Exhibition," the statement said yesterday.

Among the locations involved are the dairy cattle project at the Desa Cattle Dairy Farm in Kundasang, Ranau, paddy planting project in Kampung Tambatuon, Kota Belud and the aquaculture shrimp project by Sunlight Inno Seafood in Pitas.

The participants will also be exploring the stingray fish landing project at Kota Marudu, Datuk Yap Yun Fook plantation project in Keningau and boat transformation project by Fisheries Development Authority of Malaysia in Kuala Penyu.

Agriculture and Agro-Based Industry Minister Datuk Salahuddin Ayub, his deputy, Sim Tze Tzin and ministry secretary-general Datuk Mohd Sallehhuddin Hassan will also be present at selected locations in the programme. – Bernama

■ **KEMAMAN 12 JULAI**

AGENSI Penguatkuasaan Maritim Malaysia (Maritim Malaysia) Kemaman menahan dua bot nelayan asing bersama empat nelayan warga Myanmar termasuk tekong kerana menceroboh perairan Kerteh dekat sini pagi semalam.

Pengarah Zon Maritim Kemaman, Komander Maritim Rashidilhadi Abd. Rashid berkata, sebelum itu pihaknya menerima maklumat orang awam mengenai aktiviti penangkapan ikan oleh nelayan pantai asing terbabit.

Menurutnya, berikutan itu, sebuah bot peronda ditugaskan membuat tinjauan ke kawasan tersebut dan mendapati dua bot fiber kendalian warga Myanmar yang merupakan pemegang kad Pertubuhan Bangsa-Bangsa Bersatu Bagi Pelarian (UNHCR) giat menjalankan aktiviti penangkapan ikan kira-kira sembilan kilometer dari Pantai Kerteh.

Beliau berkata, empat nelayan berusia 20 hingga 25 tahun itu ditangkap kira-kira pukul 10 pagi semalam sebelum dibawa ke Jeti Zon Maritim Kemaman untuk siasatan lanjut.

RASHIDILHADI

"Kes ini juga akan disiasat di bawah Akta Perikanan 1985 kerana mereka gagal mempamerkan lesen dan permit kebenaran menangkap ikan daripada Jabatan Perikanan Malaysia.

"Hasil pemeriksaan pihak kami mendapati nilai rampasan dianggarkan RM60,000 termasuk nilai dua buah bot dan juga peralatan menangkap ikan," katanya kepada *Utusan Malaysia* di sini hari ini.

Rashidilhadi berkata, Maritim Negeri Terengganu dan Zon Maritim Kemaman akan terus mempertingkatkan kawalan keselamatan dan penguatkuasaan undang-undang maritim bagi memastikan undang-undang dipatuhi selain keselamatan pengguna maritim di perairan Malaysia sentiasa terjaga.

Sehubungan itu, beliau meminta kerjasama orang ramai membantu menangani sebarang kesalahan atau jenayah di perairan negara dengan menghubungi talian MERS 999 atau Zon Maritim Kemaman 09-8582825.

Pasir Puteh

Bukan saja bertindak menceroboh perairan negara, malah bot nelayan Vietnam turut berlagak samseng di laut apabila bertindak agresif dengan melanggar KM Pekan milik Agensi Penguatkuasaan Maritim Malaysia (APMM) ketika cuba meloloskan diri daripada penguat kuasa.

Kedegilan dan sikap biadab nelayan asing itu menyebabkan kru KM Pekan diketuai Pegawai Memerintah, Kapten Maritim Che Engku Suhaimi Che Engku Daik, mengambil masa empat jam sebelum berjaya memintas bot berkenaan pada kedudukan 97 batu nautika dari Kuala Tok Bali, jam 2.40 petang, Selasa lalu.

Pemangku Pengarah APMM Kelantan, Komander Maritim Ismail Hamzah berkata, terdahulu KM Pekan berjaya memintas dan menahan sebuah bot nelayan Vietnam pada kedudukan 92 batu nautika dari Kuala Tok Bali pada jam 1.12 tengah hari.

"Pada masa sama KM Pekan mengesan bot berkenaan berada pada kedudukan berhampiran dan terus merapati untuk melakukan penggeledahan serta pemeriksaan.

"Namun kru bot membuang tali dan pukat ke laut. Tujuan mereka adalah supaya peralatan itu terlekat pada kipas dan menghalang pergerakan KM Pekan.

"Namun atas pengalaman kru KM Pekan taktik itu tidak berhasil. Tekong juga melakukan pergerakan berbahaya hingga bot dikendalikan tersangkut pada sisi KM Pekan, tetapi bot berkenaan berjaya dipintas akhirnya," katanya pada sidang media di Pekarangan Pejabat APMM Tok Bali di sini, semalam.

Katanya, hasil pemeriksaan dilakukan pihaknya tidak menolak kemungkinan kru bot kedua yang bertindak agresif membuang alat navigasi Sistem Pengesanan Global (GPS) ke laut untuk menghilangkan bukti kedudukan bot dalam

ISMAIL (kanan) menunjukkan dua bot nelayan asing yang ditahan bersama 21 awak-awak, dari negara Vietnam di Pekarangan Pejabat APMM Tok Bali.

HASIL tangkapan laut bernilai RM1.5 juta dirampas dalam operasi.

Tukar sasaran ke perairan Sabah, Sarawak

Pasir Puteh: Pencerobohan nelayan asing terutama warga Vietnam dilihat menumpukan sasaran ke perairan Sabah dan Sarawak selepas penguatkuasaan peraturan di Kelantan semakin ketat.

Pemangku Pengarah Maritim Negeri Kelantan, Komander Maritim Ismail Hamzah berkata, operasi Agensi Penguatkuasaan Maritim Malaysia (APMM) yang sering membuat tangkapan besar-besaran dan kerjasama dengan Polis Marin Thailand menyebabkan nelayan warga Vietnam kini mengubah aktiviti tangkapan ikan ke dua negeri berkenaan.

Katanya, pencerobohan ke atas perairan negara sangat serius kerana aktiviti tangkapan ikan di dalam perairan negara dilakukan hampir setiap hari.

"Kerakusan nelayan ini menangkap ikan dengan cara pukat tunda menyebabkan perairan negara mereka sudah tidak ada lagi hasil laut.

"Ini menyebabkan ratusan bot mereka terbiar dan mula mengaut hasil di perairan negara kita malah sekarang sudah bergerak ke perairan Sabah dan Sarawak selepas banyak aktiviti mereka terjejas dengan adanya Op Naga," katanya ketika ditemui di pejabat Agensi Penguatkuasaan Maritim Malaysia (APMM), Tok Bali di sini, semalam.

Beliau berkata, nelayan Vietnam turut bergerak lebih jauh ke Indonesia, Filipina, China dan Australia.

Katanya, penguatkuasaan pelbagai pihak harus diperketat memandangkan nelayan asing seolah-olah tidak serik melakukan kesalahan kerana kompaun dan wang jaminan dikenakan mudah dibayar pemilik bot atau tauke mereka.

"Jika sabit kesalahan, bot akan disita namun tekong dan awak-awak akan dibebaskan dengan jaminan RM30,000 hingga RM60,000 yang sanggup dibayar pemilik.

"Sejak awal tahun ini kita lihat aktiviti pencerobohan nelayan asing dah semakin kurang di perairan Kelantan, ini hasil operasi yang dilaksanakan," katanya.

perairan Malaysia.

Beliau berkata, pihaknya merampas kedua-dua bot berkenaan, peralatan menangkap ikan, hasil tangkapan pelbagai spesies dan sotong kering seberat 60 kilogram dianggarkan bernilai RM1.5 juta.

Ismail berkata, semakan dilakukan mendapati 21 warganegara asing ditahan membabitkan dua tekong dan kru yang ditangkap berusia antara 17 hingga 55 tahun.

"Pemeriksaan pada bot pertama membawa kepada tangkapan seorang tekong dan dua kru tidak memiliki dokumen pengenalan diri yang sah.

"Sementara pemeriksaan di bot kedua pula kami menahan seorang tekong dan kru. Semakan mendapati hanya empat daripada mereka termasuk tekong memiliki dokumen pengenalan diri," katanya.

Jelasnya, dua bot berkenaan bersama tekong dan kru dibawa ke Jeti APMM di Tok Bali untuk siasatan lanjut dan bagi membantu siasatan mengikut Akta Perikanan 1985.

Beliau berkata, kejayaan itu menjadikan tangkapan menerusi Op Naga meningkat kepada 62 dengan 49 adalah bot nelayan Vietnam, dua bot Thailand dan 11 bot nelayan tempatan dalam tempoh 79 hari operasi dilaksanakan.

Kuala Lumpur

Tegas guna peruntukan perundangan

Apa saja bentuk rantaian kegiatan mencuri hasil sumber laut perlu dilumpuhkan segera bagi mengembalikan semula hak nelayan dan pengguna Malaysia.

Timbalan Presiden Gabungan Persatuan-Persatuan Pengguna Malaysia (Fomca), Mohd Yusof Abdul Rahman berkata, pihak berkuasa berkaitan perlu menangani isu berkenaan dengan lebih tegas menggunakan peruntukan perundangan.

Beliau berkata, jika pihak berkuasa tidak dapat membanteras kegiatan nelayan asing ini, tidak mustahil ikan diimport daripada hasil tangkapan perairan Malaysia sendiri.

"Tidak adil untuk pengguna sedangkan sumber laut kita banyak dan hasil tangkapan negara kita berkualiti tetapi oleh kerana ikan itu didaratkan di negara asing kita terpaksa import pula ikan dari luar yang sebenarnya itu adalah ikan di perairan Malaysia.

"Bukan saja pendapatan nelayan kita terjejas kerana tangkapan ikan kurang berkualiti atau semakin berkurangan tetapi pengguna juga terpaksa bayar harga ikan mahal di pasaran.

"Kesannya berangkai sebab itu sepatutnya pihak berkuasa perlu hentikan segera kegiatan berleluasa ini dan siasat betul-betul serta ambil tindakan tegas kepada mana-mana pihak atau nelayan tempatan yang bersekongkol," katanya.

SEBAHAGIAN bot nelayan asing warga Vietnam yang ditahan ditempatkan di jeti APMM di Kemaman.

Kangar

Agensi Penguatkuasaan Maritim Malaysia (APMM) Zon Kuala Perlis mengesan segelintir penduduk di perkampungan nelayan atau rumah laut di Kuala Perlis menjadi dalang dengan membocorkan maklumat berkaitan operasi rutin agensi itu kepada pengusaha bot nelayan asing.

Pengarah Maritim Zon Kuala Perlis, Komander (Maritim) Nurulazme Zakariah berkata, mereka ini mempunyai pengalaman di laut dan mengetahui selok belok aktiviti perikanan.

Beliau berkata, pihaknya akan bertindak dan memantau perairan berkenaan setiap kali menerima maklumat berkenaan aktiviti menangkap ikan oleh bot nelayan asing.

"Namun apabila tiba di lokasi aktiviti itu tidak ada, bot dilaporkan sudah lepas. Mereka seakan-akan mengetahui kehadiran pihak berkuasa.

"Kami tidak menolak kemungkinan pengusaha bot berkenaan mengupah penduduk di penempatan nelayan yang berdekatan untuk memantau jeti dan pergerakan kapal melakukan rondaan.

"Berdasarkan risikan, mereka yang diupah sebagai tonto ini menerima bayaran ribuan sehingga ratusan ribu ringgit setahun," katanya ketika ditemui di pejabatnya di Kuala Perlis, semalam.

Mengulas lanjut, Nurulazme berkata, pihaknya turut menemui beberapa petunjuk mengenai dakwaan bahawa penduduk setempat di perkampungan nelayan yang terbabit menjadi tonto kepada bot asing.

"Ini berdasarkan tingkah laku yang mencurigakan ditunjukkan penghuni di penempatan terapung berkenaan setiap kali melihat bot rondaan APMM keluar dari jeti.

"Mereka memasang lampu pelbagai warna di balkoni yang bertentang dengan laut, seolah-olah sebagai satu isyarat setiap kali ada rondaan bot yang dibuat pihak kami," katanya.

Sebelum ini Harian Metro melaporkan lebih 200 nelayan sekitar daerah ini mengadu perairan pantai di Kuala Sungai Bahru sering kerap diceroboh bot pukat tunda nelayan asing.

Sebahagian nelayan terbabit mendakwa penguatkuasaan yang tidak sistematik dan lemah menjadi faktor pengusaha bot haram menceroboh perairan berkenaan.

DOF, SPRM sedia bekerjasama

Kuala Lumpur: Jabatan Perikanan Malaysia (DOF) sedia bekerjasama dengan Suruhanjaya Pencegahan Rasuah Malaysia (SPRM) bagi menangani salah laku membabitkan unsur penyelewengan termasuk membabitkan isu berkaitan pencerobohan nelayan Vietnam.

Ketua Pengarahnya Datuk Munir Mohd Nawi berkata, isu dibangkitkan lesen alibaba dan bot klon nelayan Vietnam dilaporkan Harian Metro banyak menjurus kepada aspek penguatkuasaan.

"Namun kami perlu menyiasat perkara ini dengan lebih lanjut, berdasarkan aduan DOF akan siasat sama ada benar bot itu bot asing yang diklon daripada bot tempatan melalui semakan e-lesen atau Malaysian Fishing *Vessel Record (MFVR)* dan rekod *Vessel Monitoring System (VMS)*.

"Semakan fizikal melalui pejabat perikanan negeri di pangkalan vesel yang beroperasi juga akan dilakukan.

"Boleh serah nombor bot yang didakwa bot asing klon itu kepada DOF untuk siasatan selanjutnya atau serah kepada SPRM untuk tujuan sama," katanya.

Beliau berkata, DOF mengulangi pendirian mengambil tindakan tegas terhadap mana-mana pihak yang bersekongkol dalam isu pencerobohan nelayan asing.

"Sekali lagi kita ulangi, DOF akan mengambil tindakan tegas termasuk membatalkan lesen vesel penangkapan ikan nelayan tempatan yang bersekongkol dengan aktiviti ini.

"Malah, kita telus dan sedia bekerjasama sepenuhnya dengan SPRM dalam menguatkuasakan undang-undang jika wujud sebarang ketirisan atau penyelewengan," katanya.

Katanya, semua prosedur operasi standard (SOP) diteliti semula selain penguatkuasaan dan naziran dipertingkatkan bagi menangani isu berkaitan pencerobohan nelayan asing.

"SOP perolehan vesel luar negara dan SOP pengeluaran permit laut dalam diteliti semula. Malah, penyelarasan agensi penguatkuasaan dan naziran akan dipertingkatkan lagi," katanya.

Munir berkata, bermula 2011 sebanyak 172 daripada 353 lesen dikeluarkan sudah dibatalkan kerana tidak mematuhi syarat permohonan.

Menurutnya, DOF melaksanakan langkah pengurusan mampan dalam skop lebih meluas berdasarkan semua laporan aktiviti yang memberi kesan kemerosotan kepada sumber perikanan negara.

↑印尼籍乘客非法携带重达 14.8 公斤，总值约 364 令吉 8 仙香甜芒。马来西亚检疫及检验服务局充公这批芒果。

←马来西亚检疫及检验服务局充公总值 665 令吉的速冻羊肉、牛肉、猪肉及乳酪到我国，58 岁澳洲籍女子被逮捕。

携羊牛猪肉入境
澳女子被逮捕

（槟城 12 日讯）携带总值 665 令吉的速冻羊肉、牛肉、猪肉及乳酪到我国，58 岁澳洲籍女子被逮捕。

马来西亚检疫及检验服务局（MAQIS）在槟州国际机场进行取缔行动时，发现该女子携带重达 9 公斤的羊肉、4.22 公斤的牛肉、2 公斤猪肉及 4 公斤乳酪。

农业与农基副部长沈志勤日前说，自亚洲爆发非洲猪瘟（ASF）疫情后，我国已经禁乳猪入口，但是该名澳籍女子依然携带猪肉到我国。

该禁令是为了预防引进非洲猪瘟（ASF）病毒，以免破坏我国畜牧业，而且除了禁止进口，乘客也被禁止通过航空公司运载猪肉或猪肉产品。有传播 ASF 病毒风险的产品如活猪、鲜猪肉、冷冻猪肉、熏猪肉、香肠等加工猪肉产品。#

印尼乘客非法携带
14 公斤香甜芒被充公

另一方面，马来西亚检疫及检验服务局与大马皇家海关署合作，于周五(12 日）早上 11 时在槟州国际机场展开取缔行动，发现来自印尼的乘客非法携带重达 14.8 公斤，总值约 364 令吉 8 仙的香甜芒（mangga harumanis），因此充公该芒果。

当局临检时发现香甜芒没有正规入口准证，因此香甜芒全数被充公，以防虫害破坏芒果业，而且除了禁止入口，乘客也不被允许通过空运带入芒果。

上述行为抵触 2011 年检疫及检查服务法令 728 条文、11(1)、11(3)，一旦罪成可被罚款 10 万令吉或被监禁不超过 6 年或两者兼施。

MAQIS 将确保植物、动物、尸体、鱼类、农产品、土壤及进口到我国的微生物不含杀虫剂、疾病和受污染，同时也不影响我国农业发展，并注重人们健康、动物、植物、鱼类及食品安全。#

- **Crowdfunding** a possible source for agricultural entrepreneurs
- **AgroBazaar** online aims to boost sales of fresh and processed foods for local agriculture-based entrepreneurs

Reinventing and re-engineering FAMA

FAMA's Pasar Tani, where farmers sell their produce directly to consumers, have become crowd pullers, especially in urban and semi-urban areas

by **V. Sanjugtha**

The Federal Agricultural Marketing Authority (FAMA) is busy modernising and re-engineering its processes along the value chain as it strives to create better opportunities and higher income potential for farmers while producing better quality food at more affordable prices.

Tall order? Not for the new chairman, Ishak Ismail, at the helm. Determined to shed the traditional image of FAMA, he is revving its engines as he leverages on the sharing economy and Internet of Things to make farm-to-table produce at a fraction of the expected cost.

A popular figure in the property industry, he was appointed FAMA chairman last November, largely due to his extensive experience and expertise in marketing.

Ishak tells *FocusM* that he visualises a future for the food industry that is fuelled by a sustainable and continuous supply while ensuring farmers' profit margins are boosted without affecting consumer prices, thus satisfying a key pillar of the agency, to elevate the income level of the nation's agricultural providers.

FAMA is the only marketing agency for agro-based products in the country, encompassing fresh products as well as processed foods.

"Our role is to ensure that the products can access the market. We are also duty bound to ensure that farmers have access to funds within the authority.

"We are key to educating and regulating the entrepreneurs to reach the level of standards commensurate with FAMA's vision," Ishak explains.

Availability of funds is one of the biggest challenges entrepreneurs face. To enhance access to funds, Ishak spearheaded talks with Agrobank for FAMA to guarantee a farmer's crop value.

"We sign a forward agreement with our farmers, guaranteeing a floor price for their crops. This guarantee is now accepted by the banks as a form of collateral to provide them with loans," he says.

But Ishak is also looking at the growing trend of crowdfunding as a resource for farmers. He reveals that plans are afoot to draw up funding options for entrepreneurs with some crowdfunding platforms.

FAMA achieved sales to the tune of RM2.80 bil last year and projects a 10% growth to RM3.2 bil this year. Its biggest contributor was its one-stop centre programme under the Rural Transformation Centre (RTC), with RTC Kelantan scoring sales of RM300 mil last year.

Its fresh produce marketing attracted purchases worth RM1.7 mil from January to August last year while its entrepreneur retail initiative E-Shoppe raked in RM3.2 mil in the same period.

FAMA's mobile retail unit, Karavan Tani, accounted for RM20.2 mil of sales from January to August last year and its farm outlets contributed RM27.5 mil in sales in the same period.

FAMA is responsible for ensuring that consumers are able to access the products at fair and reasonable prices, which are at least 5% to 20% below the prices at public markets.

Ishak notes that the penetration of most these distribution outlets is still low and believes substantial sales growth can be achieved with increased marketing efforts that create more outlets to channel produce directly from the farm to the consumers.

"From the time I stepped in, I see this as one of the core functions of FAMA," says Ishak, who is also the founder and managing director of IM Global, a property consultancy, estate agency and property management company that has been in the market for over a decade.

Drawing parallels with his role in the estate agency, Ishak points out that marketing is the key to the success of any industry.

"Only the product differs, but when we learn about property, we are taught all the marketing tricks to market and sell a product," he reveals.

Ishak is a strong advocate of technology and he believes the way forward for FAMA is to fully utilise technology as it plans its initiatives in line with the five core pillars of its parent, the Ministry of Agriculture (MoA):

- Modernise and increase agricultural output.
- Increase private investment.
- Ensure that all the agricultural providers are well compensated.
- Improve the consistency of the agriculture industry.
- Strengthen the organisational structure of each agency and department under the MoA.

"There is a need for a robust communications channel and an effective distribution channel." Ishak

Technology is key

FAMA's online portal, AgroBazaar Online currently has a low penetration rate. Sales via the portal from January to August last year was only RM650,000.

Ishak sees the need to hop onto the Internet of Things (IOT) as FAMA plans to grow AgroBazaar Online into becoming the go-to platform for all fresh and processed produce.

"We have 2,700 outlets across the country but they are all offline. People are not aware of AgroBazaar Online platform," he laments, acknowledging that its potential is big.

According to Ishak, FAMA has about 10,000 entrepreneurs but only about 1,800 have stock keeping units (SKU) online. To encourage online registrants, FAMA is offering free registration for more SKUs to be offered on the online platform.

But this is only one piece of the puzzle. The next hurdle in cementing an online presence is the delivery channel.

FAMA needs sufficient pick-up points or a sound delivery system to be viewed seriously as a go-to grocery provider.

"FAMA has ample resources in the 250 Pasar Tani nationwide and if we can up the registrants from these entrepreneurs and get them to join the online portal, then they not only widen the AgroBazaar offering but also serve as our additional pick-up points," Ishak observes.

This creates the next generation of shoppers with consumers going online to select their produce and have them either delivered to their home or to be picked up at designated locations nationwide.

Ishak takes his vision a step further with the intention to create FAMA's own delivery system, Tani Express.

Banking on MYAGROSIS (Agriculture Graduate Entrepreneurs Club) members, comprising students and ex-students of local institutions of higher learning, FAMA intends to offer them an additional source of income by serving as its delivery channel, not unlike GrabFood.

from page 5

or other home-delivery services.

"Currently, many of them are part of our dropship agents (manufacturers or wholesale distributors who products directly to customers for sellers) but we would like to rope them in to join Tani Express.

"Then delivery becomes another area where they can improve their source of income," Ishak reveals.

Unlocking idle land

Lack of a continuous and sustainable supply of produce seems to be hindering the income potential and obscuring the attractiveness of the agriculture industry.

"There is a lot of state land that is not developed all over the country. So, I have taken the initiative to request the state authorities for waqaf and idle land to be developed," Ishak says.

FAMA currently runs a programme dubbed Permanent Food Production Park (TKPM) where farmers work on contract. This helps increase the earning potential of the farmers by providing an avenue to cultivate on a larger scale.

However, there are two points of contention: Price and mismatch of supply and demand in the market.

According to Ishak, FAMA has a forward agreement with the farmers to purchase their produce at a floor price. If the market price is higher, that is what the farmers get.

"The problem is that the system does not lock them in, to sell to FAMA only. So, if there is a buyer offering a higher price, FAMA then faces a disruption in supply to our consumers," he explains.

Another challenge is when the produce is below the quality expectation of the market. FAMA is then tasked to push a product that the market does not want, and this reduces the farmers' profit margin.

In view of such hurdles, Ishak believes that the way forward would be for FAMA to be able to control and manage the system, steering it to meet market demands.

Hence, the new system will shift the reins to FAMA in steering the direction of business for each plot of land. FAMA will dictate what is to be planted where to ensure market demands are met, thus ensuring a better profit margin.

"We will station our officers to ensure that the farmers abide by the requirements. We need to be strict on this and, if need be, farmers who do not comply with our standards will be terminated from the scheme," Ishak stresses.

Big data to fuel big changes

FAMA's forward-thinking chairman says data is the key that unlocks a world of information to efficiency in operations.

Selling online directly to consumers is one of several strategies FAMA is working on to match supply and demand with the focus on equitable pricing for both farmer and buyer

With the world abuzz on big data and block chain technology, he is rethinking strategies to utilise the available resources to modernise and streamline FAMA's operations to ensure that food produce reach consumers efficiently while farmers are well compensated.

Ishak saw a huge wasted opportunity when supply missed regional demand. FAMA was constantly plagued with grouses of farmers turning out products that did not meet the market's demand at that point in time.

"Therefore, there is oversupply, and when this happens prices drop," he explains, reminding that FAMA is also responsible for ensuring that farmers have a healthy income.

The problem lies in the fragmented information held by various agencies. While FAMA has sufficient data on demand preferences and trends from its 5,700 outlets nationwide, the supply data is held by various agencies under the Agriculture Department.

"What we intend to do is create an interactive programme that will frame the existing supply and demand information with accuracy and reflects the most current demand trends in the market," Ishak points out.

He reveals that the necessary software is being developed – Supply Demand Virtual Information 2.0. (SDVI) will leverage on the IoT using block chain technology to create a more interactive experience that will link producers, consumers and wholesalers with increased transparency, subscribing to the principle of a market-driven approach to pricing.

Reaching consumers

As FAMA re-engineers the age-old supply chain in the agriculture industry, crucial to the successful rolling out of its new and improved initiatives is the need for a robust communications channel and an effective distribution channel.

To bridge this gap in the market, Ishak breaks the boundaries of convention as he aims to create FAMA's own media division which will focus on disseminating information on all its programmes and initiatives in a timely manner.

"We aim to create FAMA TV, similar to the online news channels today. But we will focus on FAMA-specific news so that the traders, wholesalers and consumers know where to access current information such as pricing, location of pasar tani and who to go to if a farmer wants to sell his produce," he explains.

At present, information is disseminated largely through its own marketing initiatives on a smaller scale and through third party channels like Bernama, TV1 and TV3.

Creating its own media channel will reduce dependency on third party channels where content is not within FAMA's control, and Ishak notes that many initiatives have not achieved the desired outcome due to poor communication and marketing information.

Ishak sees the need to educate and enlighten the public through an initiative like FAMA TV which will be easily accessible on mobile phones.

At present, to know the price of products at all pasar tani, a consumer can access an app called GoPasarTani but it does not capture the entire spectrum of the marketing funnel.

Providing the information is only one aspect of the value chain. Moving on, FAMA needs to ensure that the products are easily available to consumers.

To meet this challenge, FAMA is building its first Agro Mall along the Damansara-Puchong Highway.

The RM8 mil project will see the upgrading of FAMA's existing structure on a 1.2ha plot of land to incorporate a second floor for the sale of processed products. ■

FAMA seeks changes to its Act to do its job better

STEPPING into a new role and helming a public sector agriculture-based agency, property man Ishak Ismail realised he had to first tie up the loose ends. As the government's sole marketing arm for all agriculture-based products, the Federal Agricultural Marketing Authority (FAMA) must have clout over all marketing activities of all the commodities in the sector.

However, he realised that the Federal Agricultural Marketing Authority Act of 1965 now no longer provides FAMA with full marketing control for certain commodities.

For instance, all fish products, from production to market, are managed by the Fisheries Department, as with rubber and oil palm (Primary Industries Ministry) and poultry and cattle (Veterinary Department). FAMA only handles the marketing of certain produce such as horticulture, floriculture and herbs.

According to Ishak, the weakness from lack of centralised control arises when there are issues or challenges in a particular industry.

Ultimately, an issue that is related to marketing, is channelled back to FAMA, regardless of which agency handles it.

"For example, many quarters were questioning the recent rise in egg prices. Although the marketing aspects are not handled by FAMA, consumers are still turning to us for answers," he explains.

Ishak took the first step in drawing up a list of amendments to the Act necessary for FAMA to function effectively, submitting the first draft to the Agriculture Ministry.

"The ministry has asked us to re-look at some of the proposed amendments, so we need to engage all the relevant departments and agencies for their opinions before we proceed further," he adds.

Three main amendments are being sought. One is to bring back the core functions of FAMA, in order to facilitate the smooth and coordinated planning of all marketing activities for all commodities.

Another is to grant FAMA the formal jurisdiction to register all farmers, marketers and those along the supply chain in order to capture data for future initiatives and programmes.

The third amendment is to provide its regulatory officers with enforcement powers during inspections of grading, labelling and packaging (GPL) for products.

"Our officers need the power to ensure that there is proper compliance and application of GPL standards so we can identify products that should not be sold to consumers such as the recent instance of Vietnam chillies with high pesticide content," he explains.

Ishak explains that these amendments are also necessary to enable FAMA extend its jurisdiction to the Sabah and Sarawak markets. The current law restricts it to the peninsula.

PINTU gerbang yang mengalu-alukan kedatangan pengunjung di Taman Botani Negara di Bukit Cerakah, Shah Alam, Selangor.

Taman Botani Negara Shah Alam dibuka

■ SHAH ALAM 12 JULAI

TAMAN Botani Negara di Bukit Cerakah di sini, yang ditutup sejak awal Mac lalu, dibuka semula kepada orang ramai sejak seminggu lalu.

Ketua Setiausaha (KSU) Kementerian Pertanian dan Industri Asas Tani, Datuk Mohd. Sallehhudin Hassan berkata, pembukaan semula taman botani itu lebih awal adalah bertujuan membolehkan orang ramai melakukan aktiviti riadah bersama keluarga.

"Taman botani ini, sebelum ini ditutup kerana kerja pembersihan dan pemulihan akibat kejadian ribut yang melanda awal Mac lalu.

"Namun hari ini kita nak menguar-uarkan kepada orang ramai bahawa taman botani ini dibuka kembali tetapi terhad kepada laluan A sahaja, berikutan kawasan ini menjadi tarikan kepada orang ramai untuk aktiviti riadah," katanya kepada pemberita selepas merasmikan program Fun Run sempena pembukaan semula taman botani itu, di sini.

Beliau berkata kawasan yang dibuka kepada orang ramai itu antaranya laman padi, taman rempah ratus, taman haiwan dan dewan keraian.

Katanya, walaupun kawasan berkenaan masih dalam kerja baik pulih, tetapi orang ramai masih boleh melakukan aktiviti riadah selain melakukan lawatan untuk tujuan pendidikan.

"Di laluan A ini ada sedikit kemudahan yang perlu di baik pulih lagi ini termasuklah di taman haiwan yang mana berlaku kerosakan di kandang haiwan kerana dihempap pokok akibat ribut.

"Kawasan lain seperti taman rempah ratus dan laman

ORANG ramai boleh melakukan aktiviti riadah selain melakukan lawatan untuk tujuan pendidikan di taman ini.

PENUTUPAN Taman Botani Negara di Bukit Cerakah, Shah Alam dilakukan kerana kerja pembersihan dan pemulihan akibat kejadian ribut pada Mac lalu.

padi tidak terjejas, kita harap laman padi juga akan dapat menghasilkan padi dalam tempoh terdekat ini yang mana pengunjung berpeluang untuk turun ke bendang melihat sendiri proses menuai padi," katanya.

Mengulas lanjut, Mohd Sallehhudin berkata pihaknya berharap menjelang Januari tahun depan, kesemua fasiliti di taman botani itu dapat dibuka sepenuhnya kepada pengunjung.

Beliau berkata, buat masa ini kawasan yang masih belum dapat beroperasi ialah tapak fasiliti membabitkan aktiviti sukan lasak.

"Kawasan yang masih diselenggara ialah di laluan B dan C yang membabitkan kawasan pengembaraan seperti laluan merentas hutan, berbasikal dan aktiviti sukan lasak yang lain," katanya.-BERNAMA

MOA mahu IADA Kota Belud majukan tanaman padi organik

KOTA BELUD: Kementerian Pertanian dan Industri Asas Tani (MOA) mahu Kawasan Pembangunan Pertanian Bersepadu (IADA) Kota Belud terus komited memajukan pembangunan tanaman padi organik di Kampung Tambatuon, dekat sini.

Timbalan Menterinya, Sim Tze Tzin berkata, kementerian akan sentiasa menyokong usaha IADA Kota Belud bagi mengkomersialkan tanaman padi organik di kampung berkenaan memandangkan ia mempunyai potensi tersendiri dan permintaan dalam pasaran juga cukup meluas.

"(IADA Kota Belud) perlu menjadikan tempat (Kampung Tambatuon) sebagai lokasi istimewa bagi tanaman padi organik kerana beras dihasilkan mempunyai khasiat tinggi selain harganya juga tinggi.

"Usaha memajukan tanaman padi organik di kampung ini juga akan mampu meningkatkan hasil pendapatan petani sekali gus seiring dengan hala tuju kementerian untuk memastikan pendapatan petani dapat ditingkatkan.

"Apabila hasil pendapatan petani meningkat, mereka pastinya akan lebih bermotivasi untuk meningkatkan lagi hasil pengeluaran padi mereka," katanya ketika berucap merasmikan Program Kembara Media MOA dan Pusat Informasi Padi Kampung Tambatuon di sini, pada Jumaat.

Dalam pada itu, Sim juga mahu IADA Kota Belud memberi perhatian untuk menambahbaik sistem pengairan dan saliran di Kampung Tambatuon bagi memastikan para petani di kampung berkenaan mendapat sumber air mencukupi bagi tanaman padi organik.

Mengenai Pusat Informasi Padi, Sim berkata, ia adalah bukti kesungguhan kerajaan menerusi IADA Kota Belud dalam memastikan penyaluran maklumat terkini berkaitan pembangunan padi negara dapat disampaikan kepada golongan sasar. – Bernama

Federal support for Kota Belud's organic paddy efforts

KOTA BELUD: The Agriculture and Agro-based Industry Ministry (MOA) will support the local Integrated Agricultural Development Area (IADA)'s efforts to commercialise organic paddy in Kampung Tambatuon, near here.

Deputy Minister Sim Tze Tzin, however, said the agency must be committed in its endeavour.

"Kota Belud IADA must set aside Kampung Tambatuon as a special location for organic paddy cultivation as the rice produced from it is nutrient-dense and can fetch a good price.

"The farmers can also enhance their income and feel motivated to increase organic paddy production," he said while launching an MOA media roadshow and Kampung Tambatuon Paddy Information Centre, here, Friday.

Meanwhile, Sim urged Kota Belud IADA to improve the drainage and irrigation system in Kampung Tambatuon to ensure an adequate water supply for the farmers.

On the information centre, he said it reflected the Government's earnestness through Kota Belud IADA to ensure that updates on paddy development in the country could be channelled to the target group.

Sebahagian kawasan petempatan nelayan sekitar Kuala Perlis.
(Foto Dziyaul Afnan Abdul Rahman/BH)

Penduduk kampung nelayan Kuala Perlis jadi tonto bot asing

Kangar: Agensi Penguatkuasaan Maritim Malaysia (Maritim Malaysia) Zon Kuala Perlis mengesan segelintir penduduk kampung nelayan di Kuala Perlis, menjadi dalang membocorkan maklumat berkaitan operasi rutin agensi itu kepada nelayan asing.

Pengarah Maritim Zon Kuala Perlis, Komander (Maritim) Nurulazme Zakariah, berkata ini berikutan pihaknya mengesan beberapa rumah di petempatan nelayan dilihat dalam keadaan mencurigakan.

Menurutnya, penduduk di petempatan terbabit yang terdiri daripada bekas tekong bot dipercayai menjadi tonto kepada bot haram dan penangkap ikan dari negara jiran.

"Kita sering memantau perairan negara setiap kali menerima maklumat daripada nelayan tempatan berhubung pencerobohan bot haram, namun aktiviti itu seakan lesap setiap kali kita tiba di lokasi kejadian.

"Mereka seakan mengetahui kehadiran pihak berkuasa dan saya percaya pengusaha bot haram ini mengupah penduduk di petempatan nelayan yang berdekatan dengan jeti pihak kami untuk memantau rutin rondaan kami.

"Berdasarkan risikan pihak kami, mereka yang diupah sebagai tonto ini menerima bayaran antara ribuan sehingga ratusan ribu ringgit setahun," katanya ketika ditemui di pejabatnya di sini, semalam.

Mengulas lanjut, Nurulazme berkata pihaknya turut menemui beberapa petunjuk mengenai dakwaan bahawa penduduk setempat di perkampungan nelayan yang terbabit menjadi tonto kepada bot asing.

> ***Kita sering memantau perairan negara setiap kali menerima maklumat daripada nelayan tempatan berhubung pencerobohan bot haram, namun aktiviti itu seakan lesap setiap kali kita tiba di lokasi kejadian.***
>
> ***Nurulazme Zakariah,***
> *Pengarah Maritim*
> *Zon Kuala Perlis*

"Ini berdasarkan tingkah laku yang mencurigakan oleh penghuni di rumah terapung berkenaan setiap kali melihat bot rondaan APMM keluar daripada jeti.

"Mereka memasang lampu daripada pelbagai warna di balkoni yang bertentang dengan laut, seolah-olah sebagai satu isyarat setiap kali ada rondaan bot yang dibuat pihak kami," katanya.

Sebelum ini, media melaporkan lebih 200 nelayan sekitar daerah ini mengadu perairan pantai di Kuala Sungai Bahru sering dijadikan sebagai kawasan pencerobohan nelayan asing dan bot pukat tunda.

Sebahagian nelayan terbabit mendakwa penguatkuasaan yang tidak sistematik dan lemah menjadi faktor pengusaha bot haram bertindak menceroboh kawasan perairan berkenaan.

Bekas tekong jadi dalang gagal operasi

KANGAR 12 Julai - Sebahagian penduduk setempat dan bekas tekong bot di Kuala Perlis dipercayai menjadi dalang dan menerima habuan mencecah ratusan ribu ringgit untuk membocorkan maklumat sehingga menggagalkan operasi dijalankan Agensi Penguatkuasaan Maritim Malaysia (Maritim Malaysia) termasuk dalam usaha membanteras pencerobohan bot siput retak seribu di perairan itu.

Perkara itu didedahkan Pengarah Zon Maritim Kuala Perlis, Komander Maritim Nurulazme Zakariah mengenai kewujudan dalang atau tonto dipercayai terdiri daripada bekas tekong bot pukat tunda yang membocorkan maklumat pada setiap kali pihak penguatkuasaan melakukan operasi.

Bagaimanapun, beliau berkata, pihaknya akan sentiasa mempergiatkan rondaan serta mengatur strategi berkesan bagi mengekang aktiviti pencerobohan itu meskipun terpaksa berhadapan dengan cabaran berkenaan.

NURULAZME ZAKARIAH

"Kita percaya tonto ini yang terdiri daripada penduduk tempatan membocorkan maklumat. Saya percaya mereka dibayar dengan nilai bergantung kepada aktiviti dilakukan termasuk boleh mencecah ratusan ribu ringgit.

"Selain itu, kita juga menyedari rumah terapung di Kuala Perlis juga menyalakan pelbagai lampu ketika kita melakukan operasi seolah-seolah memberi isyarat kepada pihak tidak bertanggungjawab. Disebabkan itu, setiap kali kita pergi (operasi) keadaan seperti biasa," katanya dalam sidang akhbar di sini hari ini.

Tambak laut: Kerajaan negeri sedia beri taklimat projek

PULAU PINANG 12 Julai - Kerajaan negeri bersedia memberi taklimat dan penjelasan kepada mana-mana pihak termasuk Perdana Menteri, Tun Dr. Mahathir Mohamad berhubung projek tambak laut di selatan perairan negeri ini (PSR) yang didakwa akan menjejaskan kehidupan nelayan dan penduduk setempat.

Ketua Menteri, Chow Kon Yeow malah memberitahu, sejak projek itu dibentangkan kepada Majlis Perancangan Fiskal Negara (MPFN), antara nasihat yang diberikan oleh MPFN adalah untuk menangani isu yang melibatkan golongan nelayan di kawasan berkenaan.

"Kalau perlu kerajaan negeri sudi beri taklimat kepada mana-mana pihak.

"Salah satu nasihat yang diberikan oleh MPFN ialah untuk menangani impak kepada nelayan termasuk pemberian pampasan yang sepatutnya kepada mereka, ini memang sebahagian daripada proses seperti mana projek-projek sebelum ini," katanya dalam sidang akhbar di Kompleks Tun Abdul Razak, di sini hari ini.

Beliau mengulas mengenai kenyataan Perdana Menteri yang dilaporkan akan meneliti memorandum bantahan dibuat persatuan nelayan dan penduduk setempat berhubung projek (PSR).

Dr. Mahathir berkata, kerajaan Pusat juga akan mengambil tindakan sesuai jika dakwaan pihak berkenaan berasas.

Semalam, satu himpunan Menolak Projek PSR di Pulau Pinang diadakan di sekitar Tugu Negara, Kuala Lumpur yang turut dihadiri Koordinator Forum Pulau Pinang, Khoo Salma Nasution.

Menurut Kon Yeow, kerajaan negeri mengambil maklum tentang himpunan untuk membantah projek PSR yang diadakan di Parlimen oleh wakil nelayan dan juga pertubuhan bukan kerajaan (NGO) tersebut.

CHOW KON YEOW

"Kerajaan negeri mengulangi pendirian yang mana kebajikan nelayan tidak dipinggirkan apabila projek ini dilaksanakan, malah mereka masih boleh pergi ke laut seperti biasa," katanya.

Dalam pada itu, Kon Yeow berkata, dalam mesyuarat tertutup yang diadakan antara kerajaan negeri dan Persatuan Nelayan Pulau Pinang (PenMutiara) pada 31 Mei lalu, PenMutiara telah mengemukakan cadangan tuntutan nelayan yang akan menerima impak daripada projek PSR.

"Antara tuntutan nelayan ialah mereka mahukan pampasan berupa bot nelayan moden dan juga pembelian rumah kos rendah menerusi skim sewa beli," katanya.

Tak abai kebajikan nelayan

Kerajaan Pulau Pinang teliti cadangan tuntutan dikemukakan PenMutiara

SYAJARATULHUDA MOHD ROSLI

GEORGETOWN

PROJEK TAMBAK LAUT

Kon Yeow (tengah) bersama Afif menunjukkan cadangan tuntutan dikemuka PenMutiara pada sidang media semalam.

Kerajaan Pulau Pinang tidak akan mengabaikan dan meminggirkan kebajikan nelayan apabila projek tambakan laut di selatan Pulau Pinang (PSR) mula dilaksanakan.

Ketua Menteri, Chow Kon Yeow berkata, pihaknya akan meneliti cadangan tuntutan dikemukakan Persatuan Nelayan Pulau Pinang (PenMutiara) pada 31 Mei lalu.

Menurutnya, sejak rancangan projek tersebut, kerajaan negeri menubuhkan jawatankuasa khas untuk menguruskan semua perkara.

"Kerajaan negeri ambil maklum protes nelayan dan badan bukan kerajaan (NGO) berdekatan bangunan Parlimen semalam (kelmarin).

"Beberapa cadangan tuntutan yang dikemukakan akan diteliti antaranya pemberian bot nelayan moden, pembelian rumah kos rendah melalui skim sewa beli dan pembinaan jeti sementara. Tiada wang tunai dituntut dalam cadangan tersebut," katanya pada sidang media di pejabatnya semalam.

Kon Yeow berkata, jawatankuasa yang dipengerusikan Exco Pertanian dan Kesihatan, Dr Afif Bahardin dijangka mengadakan mesyuarat dengan PenMutiara untuk rundingan semua cadangan tuntutan dikemuka.

"Mesyuarat itu dijangka diadakan pada September ini kerana kita perlu masa untuk buat persediaan dalam mengkaji pilihan tuntutan yang diberikan.

"Untuk makluman, tiada sebuah rumah atau kampung yang terlibat dalam projek ini kerana ia dijalankan di laut," katanya.

Beliau berkata, kerajaan negeri akan pastikan kehidupan nelayan tidak terjejas dengan pelaksanaan projek itu.

"Ia termaktub dalam 18 syarat diberi Majlis Perancangan Fiskal Negara (MPFN) yang dipengerusikan Perdana Menteri, Tun Dr Mahathir Mohamad April lalu," katanya.

Kon Yeow berkata, kerajaan negeri bersedia memberi penjelasan kepada mana-mana pihak berhubung projek itu.

Kelmarin, satu himpunan menolak projek PSR di Pulau Pinang diadakan di sekitar Tugu Negara, Kuala Lumpur yang turut dihadiri Koordinator Forum Pulau Pinang, Khoo Salma Nasution.

SERUNDING Resepi Mek Nor yang didatangkan khas dari Kampung Laut, Kelantan menjadi pilihan warga kota kerana keenakan dan keaslian rasanya.

Serunding Resepi Mek Nor jadi pilihan warga kota

KUALA LUMPUR 12 Julai - Serunding atau dikenali sebagai 'sambal daging' di Kelantan merupakan antara hidangan popular dan digemari oleh seluruh lapisan masyarakat di negara ini.

Bagi penggemar serunding, kawasan sekitar Kampung Laut, Kelantan adalah antara pengeluar serunding paling popular dan terkenal sejak beberapa dekad lalu dan salah satu daripada adalah serunding Resepi Mek Nor.

Permintaan tinggi orang ramai terhadap serunding turut memberi peluang kepada pengusaha pasar malam, Zainon Johan untuk turut sama menjadi pembekal makanan tersebut di tapak Pasar Malam Lorong Tuanku Abdul Rahman (TAR), di sini.

Zainon berkata, serunding Resepi Mek Nor yang dijualnya sejak lebih 10 tahun di tapak perniagaan itu sememangnya dinanti-nantikan oleh warga kota terutama pada bulan Ramadan dan musim perayaan.

"Saya menjual empat jenis serunding iaitu daging kampung, daging import, ayam dan ikan yang dijual pada harga berbeza antara RM10 dan RM12 bagi setiap 100 gram.

"Serunding yang dijual mempunyai rasa berbeza kerana ia dimasak menggunakan dapur kayu menjadikan makanan itu lebih sedap, lazat dan tahan lama sehingga enam bulan," katanya ketika ditemui Utusan Malaysia.

ZAINON JOHAN menjual serunding sejak 10 tahun lalu di tapak pasar malam Jalan TAR kerana permintaan tinggi daripada pelanggan.

Menurut Zainon, selain warga kota, pelancong luar dan tempatan terutama dari Sabah, Sarawak, Brunei dan Indonesia turut mengemari serunding yang dijual.

"Berikutan permintaan tinggi daripada pelanggan saya terpaksa membuat tempahan sebanyak 50 kilogram pada setiap minggu.

"Selain boleh terus ke gerai yang terletak di belakang Semua House pada setiap Sabtu, khidmat penghantaran ke rumah turut disediakan dan mereka yang berminat boleh menghubungi saya di talian 018-203 7077 untuk membuat tempahan," katanya.

Selain serunding, Zainon turut menjual nasi kerabu, nasi dagang, nasi minyak dan pelbagai hidangan lauk pauk di tapak pasar malam itu.

Eksport 10,000 kilogram Musang King

GUA MUSANG – Seorang usahawan durian Musang King yang terkenal di Kelantan dijangka dapat mengeksport lebih 10,000 kilogram durian jenis itu ke China dan Hong Kong pada musim ini.

Chong Yok Fong, 52, yang lebih dikenali sebagai Tina Chong berkata, pengeluaran buah durian Musang King diusahakannya meningkat berbanding tahun lalu.

Katanya, sejak durian daripada kebunnya mula gugur kira-kira dua minggu lalu, ia mendapat permintaan tinggi daripada pembeli dan pemborong di seluruh negara.

"Bagaimanapun, saya lebih mengutamakan pemborong durian dari Raub, Pahang dahulu yang akan mengeksport buah itu ke negara China dan Hong Kong.

TINA CHONG menunjukkan Musang King yang diusahakannya di Gua Musang, semalam.

"Dusun durian saya mampu mengeluarkan 4,000 biji pada musim ini daripada lebih 500 pokok, berbanding tahun lalu hanya 3,000 biji sahaja," katanya ketika ditemui di sini semalam.

Menurut Tina, harga pasaran eksport durian Musang King ke luar negara melonjak melebihi RM100 sekilogram.

Katanya, bagi pasaran tempatan buah tersebut dijual antara RM30 hingga RM50 sekilogram bergantung kepada kualiti.

Tina berkata, dia telah mengusahakan kebun di kawasan seluas 10 hektar di Kampung Pulai di sini sejak lebih 20 tahun lalu.

Jelasnya, selain boleh menikmati keenakan raja buah itu di kebunnya, pelanggan juga boleh membeli buah tersebut di gerai jualan berhampiran rumahnya di Kampung Batu Papan 2 di sini.

Dua durian 'hangat' di pasaran

Durian D101, udang merah dapat permintaan tinggi

NORHASPIDA YATIM

KUALA TERENGGANU

Penggemar durian sudah tentu mempunyai cita rasa tersendiri, namun durian klon jenis D101 dan udang merah dikenal pasti antara yang paling laris, digemari serta mendapat permintaan tinggi di negeri ini.

Pemborong dan peruncit durian, Mohamad Afiq Jaizzuan Jamal, 26, berkata, dua jenis durian itu mempunyai keistimewaan tersendiri dan rasa yang enak menyebabkan ia selalu habis dijual.

"Durian jenis D101 isinya berwarna kuning, agak kusam tetapi rasanya lemak manis dan berkrim. Durian ini sesuai bagi mereka yang tidak sukakan rasa yang pahit dan paling digemari oleh kanak-kanak.

"Durian jenis udang merah pula warnanya unik iaitu oren kemerahan dan rasanya agak pahit lemak dan manis," katanya.

Menurutnya, dua jenis durian itu merupakan 'adik' kepada durian jenis musang king yang kini dilihat berada pada carta kedua selepas durian jenis *black pearl*.

"Berdasarkan kedudukan kualiti durian, D101 dan udang merah bawah pada musang king. Musang king sekarang jatuh nombor dua selepas *black pearl*. Tetapi, di Terengganu *black pearl* agak kurang dapat sambutan mungkin kerana harganya yang agak mahal," katanya ketika ditemui pada Program Jualah Buah-Buahan Bermusim di Pasar Tani Padang Hiliran di sini kelmarin.

Sebahagian daripada 15 tan durian yang dilelong sempena Program Jualah Buah-Buahan Bermusim di Pasar Tani Padang Hiliran kelmarin.

Kempen 'jom lebihkan makan buah-buahan tempatan' sempena program itu menyediakan 15 tan buah durian termasuk daripada jenis D13, D24, D18, D768 dan durian kampung yang diperoleh dari Johor Bahru dan Melaka serta dijual pada harga RM5 hingga RM14 sekilogram.

Mohamad Afiq Jaizzuan yang berasal dari Kampung Rawai, Bukit Payong, Marang adalah usahawan di bawah bimbingan Lembaga Pemasaran Pertanian Persekutuan (Fama) Terengganu.

Anak sulung daripada lima beradik itu berkata, dia telah berkecimpung dalam perniagaan itu sejak berusia 21 tahun dan kini sudah hampir empat tahun di bawah bimbingan Fama dengan mempunyai 12 pekerja.

Memulakan perniagaan dengan modal antara RM20,000 hingga RM30,000 usahawan muda itu mampu menjana keuntungan sebanyak RM7,000 hingga RM10,000 sehari.

"Saya berani ambil risiko dan berani melabur untuk beri durian yang terbaik dengan harga yang terbaik kepada orang ramai terutama kepada penggemar raja buah ini," katanya yang beroperasi di tepi pagar Lapangan Terbang Sultan Mahmud, Kuala Nerus.

Banking on kelulut bees and Musang King

Ibrahim Tabir

KUNAK: Diversity and perseverance are the main elements to sustain a smallholder's progress in the agricultural sector.

Noting the current gloomy commodity price for oil palm, Eyuki Ugi @ Juge, an entrepreneur here, had used a portion of his land to plant Musang King durians.

"This is a trial to see whether the crop would produce good results as Musang King is now allowed to be exported apart from being sold locally," he said, while adding that currently the fruit's market price is higher than any other fruits.

"By planting them here, I am confident that it would be easier for Musang King fans to get their supplies."

At the moment, some five acres of his farmland were planted with 160 trees of Musang King durian.

"The trees are now 10-month old and it grew well here as the weather is suitable for them."

Eyuki who had also received the State Most Successful Smallhoder Award previously, said many benefits can be obtained through experience sharing with other successful smallholders.

"To succeed in any industry, we have to make and effort to give it a try first.

Eyuki (centre) and friends touring his Musang King durian farm.

"The agricultural sector has its ups and downs, and that is why we have to be brave to diversify our products - do not rely on a single product," he said.

Aside from Musang King durian, he still paid much attention to his 48-acre oil palm plantation.

Rosley (centre) with staff of Kunak Farmers Association visiting the Kelulut honey bee farm.

"I would expand the area for my Musang King plantation into 10 acres if it yields positive result in two years' time," he said.

Meanwhile, Kelulut bee farming is capable of generating additional income for those who are keen.

A Kelulut bee farmer at Kg Skim Cocos, Rosley Edemus, said he started this venture since last September, using the vacant space at the back of his house.

Today he is enjoying the harvest of his Kelulut honey which he packed himself using a brand name Rossley.

He said although initially he did not have any skill or knowledge about the venture, he started by learning from other people's success and using his own pocket money without assistance from any agency.

"It was quite challenging at first. Now, my long-term plan is to market my product throughout Sabah and outside the State," he said, adding presently he sell to family members and friends as well as others in Kunak, apart from selling it online.

Rosley said several agencies including the State Agriculture Department, Farmers Organisation and Mardi have visited his Kelulut farm, which he operates with assistance of his wife and children.

Each of his 300ml Kelulut honey is sold at RM30.

沙拉胡丁（右）使用工具切开榴梿，右二为罗夫。

沙拉胡丁：2部门齐推农业旅游

广招中国客游榴梿园

【万宜12日讯】农业及农基工业部与旅游、艺术及文化部合作推行农业旅游，把榴梿园变成农业旅游景点，以吸引更多中国人到我国吃榴梿及其他本地水果。

部长拿督斯里沙拉胡丁表示，如今的榴梿园已不再将榴梿[illegible]运往城市贩卖，因为有许多人会主动到榴梿园，找榴梿吃。

他表示，该部也将会协助这些果园变成旅游景点，即农业旅游景点。

他说，以前一个榴梿的价格为50仙，但现在本地一个[illegible]榴梿都要10令吉，15令吉不等，而在中国，一个猫山王榴梿可以卖到500令吉。

这意味着，榴梿的价格非常具吸引力。

沙拉胡丁今日为"万宜[illegible]榴梿嘉年华与奖项"活动主持开幕后，对媒体发表上述谈话。

除了农业市场与展出外，农业工具与科技的展[illegible]，主办活动也会有榴梿品尝[illegible]及榴梿节。

该活动将从明日（13日）至14日，从早上10时至晚上7时举行，入场免费。

出席者还有大马农业发展研究院（MARDI）总监罗夫、"万宜[illegible]榴梿嘉年华与奖项"活动主任[illegible]，以及万宜[illegible]执行长[illegible]。

仅1%中国人尝过猫山王

沙拉胡丁指出，有数据显示，14亿中国人口中，只有1%的人尝过猫山王榴梿，这意味着，猫山王榴梿市场非常庞大。

他说，在榴梿季节期间，该部获准将出口1000吨猫山王榴梿到中国。

他指出，除了中国，大马的榴梿也出口到新加坡与美国。

PM, Anwar bincang bantahan projek tambak laut

Kuala Lumpur: Bantahan kumpulan nelayan di Pulau Pinang yang menentang projek tambakan laut di negeri itu, menjadi fokus perbincangan antara Tun Dr Mahathir Mohamad dan Datuk Seri Anwar Ibrahim, semalam.

Anwar berkata, pertemuannya dengan Perdana Menteri di Putrajaya pada sebelah petang, menyentuh impak projek mega itu kepada alam sekitar dan kehidupan nelayan dan negeri itu.

Beliau turut menyatakan kesediaan bertemu nelayan yang membantah projek itu bagi mendengar sendiri rintihan mereka.

"Dalam pertemuan itu, saya bangkitkan beberapa isu, antaranya rintihan nelayan di Pulau Pinang yang membantah projek tambakan laut.

"Isu ini memberikan dampak yang besar terhadap kelestarian alam sekitar dan kehidupan mereka, dan saya menyampaikan hasrat kepada Perdana Menteri untuk menemui penduduk yang terbabit dengan bantahan ini.

"Selain isu nelayan Pulau Pinang, saya turut bangkitkan beberapa masalah membabitkan golongan kontraktor kelas menengah dan bawahan," katanya dalam satu kenyataan menerusi Facebooknya, semalam.

Kelmarin, lebih 100 orang berhimpun dan berarak dari kawasan Tugu Negara ke Parlimen bagi menyatakan bantahan terhadap projek tambakan laut di selatan Pulau Pinang (PSR) yang didakwa bakal merosakkan ekosistem laut, sekali gus memberi kesan kepada nelayan negeri itu.

THANKFUL FOR VIRAL INCIDENT

Pricey Musang King cendol a boon for Melaka stall owner

MELAKA: RM38 for a bowl of cendol heaped with dollops of Musang King durian.

Peeved at the price, a customer uploaded a photo of the receipt showing RM114 for three bowls of cendol on his/her Facebook account.

The photo went viral and many agreed that the cendol was overpriced. But it ended up with the cendol seller concerned laughing all the way to the bank.

Muhammad Ariff Qayyum Mohd Zamri, the owner of a stall named Raja Cendol Taming Sari in Bandar Hilir here, said his sales had tripled after the receipt went viral in February.

"I'm so thankful the matter went viral. More people know about my stall and I've more customers now. My workers and I have never been busier," the 25-year-old entrepreneur told Bernama, adding that durian lovers would not mind paying RM38 for a bowl of Musang King cendol as they were well aware of the premium grade durian.

Even before the viral incident, his stall, set up two years ago, was popular due to the variety of durian cendol that he offered.

While the Musang King cendol is the clear winner among his customers, the Udang Merah cendol (RM20 a bowl), D24 cendol (RM20), hybrid durian cendol (RM17) and normal cendol (RM7) are also popular.

Ariff said he needed about 20kg of durian pulp a day to meet the demand for durian cendol.

"For each serving of Musang King cendol, I use between 120g and 150g of durian flesh."

His durians are mostly sourced from Johor and Pahang.

Since he is particular about the quality of the durians he uses, he has to cope with the fluctuating prices of durians.

"Between November and January, durian prices shoot up due to the smaller harvest. During the durian season from May to August, prices start to drop."

His stall, located near Menara Taming Sari in Bandar Hilir, also serves durian-based dessert called mochi (a Japanese dessert), ice-cream, dodol, candy and mooncake.

Ariff started the business as a pastime two years ago.

Little did he expect his cendol stall would eventually generate an average income of RM90,000 a month.

His income would swell up to RM150,000 a month during the school holidays when visitors throng Melaka.

Prior to setting up the stall, he worked at his family-owned factory at the Melaka Halal Hub in Serkam that produced durian-based snacks.

"I was earning about RM2,000 a month. Since durian is a seasonal fruit, I used to have a lot of free time and that's when I came up with the idea of setting up a cendol stall. My uncle and aunt had a delicious cendol recipe."

Using his savings of RM25,000 as capital, he started the venture with his father Mohd Zamri Mohd Taib, 51, as his adviser. His father had suggested to introduce Musang King cendol and add gula melaka syrup to enhance its taste.

Muhammad Ariff Qayyum Mohd Zamri (left) teaching Zarul Muhaimin Jaafar how to prepare the Musang King cendol at his stall, Raja Cendol Taming Sari, in Bandar Hilir, Melaka. BERNAMA PIC

Last year, Ariff raked in RM950,000 in sales and plans to earn RM1.2 million this year. He plans to open branches in Kuala Lumpur and Johor.

Motivated by his success, he has been encouraging youths to venture into the business.

"They must be willing to take risks. The government is providing funds to youths who wish to become entrepreneurs. Grab the opportunity as this field promises good returns."

Ahmad Dhani Mikail, 18, a student from Indonesia, said he fell in love with Musang King cendol after trying it out for the first time.

"I prefer ice kacang to cendol, which in Indonesia has slices of jackfruit added to it. But this cendol durian is delicious," he said.

His friend, Samantha Ng, 18, said she had tasted cendol back home in Singapore but found Raja Cendol Taming Sari's durian cendol the best ever.

"The cendol here is more fragrant and the gula melaka is not that sweet. I can have two bowls of this cendol at one go," she said.

Abdul Manaf Ibrahim, 47, from Seremban, said he was a durian lover and would not miss the chance to enjoy the Musang King cendol whenever he visits Melaka. **Bernama**

Angry customer makes cendol seller even richer

MELAKA: He put two quintessential Malaysian delights together. And since then, his cendol served with dollops of Musang King has made him a very happy man.

Cendol seller Muhammad Ariff Qayyum Mohd Zamri, 25, ventured into the business two years ago just to pass time.

Little did he expect his cendol stall here to eventually generate an average monthly income of RM90,000.

This would swell to RM150,000 a month during the school holidays.

In fact, sales soared even further after an angry customer posted on Facebook a receipt showing RM114 for three bowls of cendol served with Musang King.

Ariff Qayyum, who is the owner of Raja Cendol Taming Sari, said: "I'm so thankful the matter went viral. Now more people know about my stall and I've many more customers. My workers and I have never been busier."

He said durian lovers did not mind paying RM38 for a bowl of Musang King cendol, as they were well aware of the market price for the premium fruit.

While the Musang King cendol is the clear winner among his customers, he said the Udang Merah cendol (RM20 a bowl), D24 cendol (RM20), hybrid durian cendol (RM17) and normal cendol (RM7) are also popular.

"Just for each serving of Musang King cendol, I use between 120gm and 150gm of the pulp," he said, adding that his durians are mostly sourced from Johor and Pahang.

Since he is particular about the quality of durian he uses to prepare the dessert, he has to cope with the fluctuating prices of durians.

"Between November and January, durian prices shoot up due to smaller harvest. During the durian season from May to August, prices start to drop. Cheap or expensive, I still have to buy my stock," he said.

Before he opened his stall, he worked at his family-owned factory that produced durian-based snacks.

Using his savings of RM25,000 as capital, he started the venture.

His father Mohd Zamri Mohd Taib, 51, who is his business adviser, was the one who suggested that he put Musang King cendol in his menu and to add gula melaka syrup to enhance the taste.

Last year, the young entrepreneur raked in total sales of RM950,000.

Ariff Qayyum said he hoped to open branches in Kuala Lumpur and Johor in future.

Ahmad Dhani Mikail, 18, a student from Indonesia, when met at the stall recently said it was the first time he was trying out the Musang King cendol.

"I usually prefer ice kacang to cendol. But this cendol durian is really delicious," he said.

His Singaporean friend Samantha Ng, 18, said she has eaten cendol in Singapore but found Raja Cendol Taming Sari's durian cendol the best she so far.

"It is more fragrant and the gula melaka is not that sweet. I can have two bowls in one go," she said.

Another customer from Seremban, Abdul Manaf Ibrahim, 47, said he was a durian lover and would never miss the opportunity to enjoy Musang King cendol whenever he visits Melaka. — Bernama

PENANG SOUTH RECLAMATION PROJECT

'FISHING FOLK WILL BE WELL TAKEN CARE OF'

They have ample opportunities for jobs, better quality of life, says CM

AUDREY DERMAWAN
GEORGE TOWN
audreymd@nst.com.my

THE Penang government has given an assurance that the wellbeing of fishermen living in the southern part of the island will not be neglected when the Penang South Reclamation (PSR) mega project is implemented.

This came a day after the march to Parliament by hundreds of fishermen from Penang and Perak, as well as representatives of non-governmental organisations, who opposed the project.

Chief Minister Chow Kon Yeow said yesterday the fishermen could still go to sea after PSR's implementation.

"At the same time, they and their families will be given ample opportunities for employment and a better quality of life once the project kicks off.

"We, the state government, want to reiterate our stand that the fishing folk will be well taken care of," he said.

Last week, the state government confirmed that it had received the Environmental Impact Assessment (EIA) approval for PSR, which came with 72 conditions from the Department of Environment (DoE).

The reclamation project, which covers 1,800ha of the sea in the southern part of Penang, would be used to fund the state's ambitious RM46 billion Penang Transport Master Plan (PTMP).

The local fishermen had been opposing the reclamation project since 2015.

Environmentalists had argued that such a project would adversely impact the livelihood of fishermen and the marine ecosystem in the southern part of the island.

On Thursday, Prime Minister Tun Dr Mahathir Mohamad said action would be taken if it was true that PSR had negative impact on the public and environment.

Chow said during a closed-door meeting on May 31, representatives of the Penang Fishermen Association, led by its chairman Nazri Ahmad, had submitted a proposal for ex-gratia in the event the PSR project kicks off.

"For boat owners, they are asking that each of them be given a special boat, which allows them to fish further while the reclamation work is in progress.

"They are also requesting for low-cost housing to purchase or own through the rent-and-own scheme.

Penang Chief Minister Chow Kon Yeow speaking on the Penang South Reclamation mega project in George Town yesterday. PIC BY MIKAIL ONG

"They also asked for a temporary jetty to be built," he said.

As for the fishing crew, Chow said, each of them had requested for low-cost housing through a rent-and-own scheme.

"The state government will study their requests and look into our compensation package for fishermen who are affected by other reclamation projects.

"But we also want to point out that none of the fishermen's villages will be demolished as this involved only coastal reclamation, and they can continue to stay in their existing homes.

"The state executive councillor has requested for the task force set up to look into the fishermen's concerns to begin formal talks with them," he said, adding that the first meeting had been planned for September.

Chow said the state government was prepared to brief the prime minister or any other parties on PSR if the need arose.

Previously, the National Physical Planning Council had outlined 18 recommendations before the project could be given the go-ahead.

Agriculture and Agro-based Industries Minister Datuk Salahuddin Ayub had said the federal government had yet to make an official decision on PSR, noting that they were waiting for reports from several parties on the implementation of the mega-reclamation project.

Penang CM to fishermen: We will protect your rice bowl

GEORGE TOWN: Chief Minister Chow Kon Yeow assures fishermen worried about the Penang South Reclamation (PSR) project that their rice bowl will be protected.
"The state has reiterated its stand that the fishing community will not be neglected. We take the...

研发更多副产品 燕窝商勿依赖出口

大马燕窝生产量居全球第二，每年燕窝产量约400公吨。惟，谈及养燕、毛燕出口中国等课题，仍充斥挑战及争议，有待厂商及政府携手解决。本期《东方上电台》请来大马燕窝产业出口商协会会长拿督蔡千根，剖析我国燕窝业现状及前景。

我国燕窝口碑佳，大受国外认可，源于厂商遵循政府规定，从燕窝采集到加工流程都严格把关。

没被剥削情况

监管工作不马虎 奠定我国燕窝名声

只是噱头 血燕非燕子吐血

槟填海特工队 9月与渔民商赔偿

槟城12日讯｜针对槟州南部填海计划，槟州首长曹观友表示州政府已接获渔民代表的诉求，包括对方要求先进渔船及优先购买廉价房屋，而州政府已成立了以槟州行政议员阿菲夫为首的槟州南部填海特工队，并将于9月与渔民代表协会展开谈判。

曹观友（第二排左5）颁发运动员奖励金（SKIMAS），予在各项运动赛事中表现出色的槟州运动员。 -蔡坤洲-

曹观友是于周五在光大28楼召开记者会时表示，州政府是在5月31日接获渔民代表的诉求，当时是由其政治秘书郑来兴与渔民代表进行闭门会议，以商讨关于直落音布洛、峇都茅、斯里峇央及浮罗勿洞渔民的赔偿方案。

他表示，渔民代表在会议中向州政府要求先进型渔船，以及渔民和船员可获得优先权购买廉价房屋，或获得先租后售的廉价房屋的购买权，当中并没提及任何关于金钱上的补偿。

他说，为了渔民的需求及安全，渔民也提出希望州政府能为他们兴建新型特码头的要求，以让他们可拥有地方继续出海作业。

另外，曹观友也指已知悉渔民代表及非政府组织早前曾到国会抗议一事，但槟州南部填海计划的环境评估报告已通过了，因此，州政府会按照程序与渔民代表商讨补偿事宜。

不会剥削渔民福利

他也保证，州政府不会剥削渔民的福利，该计划并不会影响该地区的农耕，所有工程都是在海上进行。

曹观友也承诺州政府将寻求大马渔业发展局的意见，对渔民的诉求作出研究，槟州南部填海特工队也会与渔民作进一步的商讨。

另一方面，针对首相敦马哈迪同意给予槟州南部填海获批的事情，曹观友则回应，任何单位欲想了解更多有关计划的详情，州政府都会委派代表向他们解释并澄清。

他也表示，槟州南部填海计划已交由国家实体规划理事会决定当时所拟定的18个条件中，在其中一项清楚列明，州政府需要考量该计划对渔民的影响，而目前州政府也已按照程序与渔民商讨补偿方案。

另外，槟州行政议员阿菲夫则指已在5月31日与槟州渔民协会代表会面，州政府将会对渔民提出的补偿方案作出研究，并在今年9月再次召开会议。

他指该特工队已成立，并由农业部副部长莫哈末查迪兰、农业部副部长沈志勤、槟州行政议员查希阿都哈林、峇六拜州议员阿斯鲁，槟州交通大蓝图特别项目经理辜翰林组成。

曹觀友：接獲訴求

9月與檳南部漁民談判

（槟城12日讯）槟首长曹观友说，州政府已接获南部渔民的诉求，包括要求先进渔船及优先购买廉价屋，以槟州卫生、农业及农基工业及乡区发展委员会主席阿菲夫为首的槟岛南部填海特工队，将于9月与渔民协会代表展开谈判。

他透露，他与其政治秘书郑来兴及阿菲夫，5月31日曾与槟岛南部渔民代表展开闭门会议，当时渔民代表有提呈诉求建议书，渔民除了要求先进渔船及优先购买或先租后售廉价屋，也提及船员要求优先购买或先租后售廉价屋。

“渔民代表也要求在进行填海工程时，必须要兴建一个安全的临时码头。”

填海工程没拆屋

曹观友今午召开记者会说，州政府将研究有关建议，并会听取其他政府机构如渔业发展局的意见，也会参考以前进行工程时渔民所获的赔偿后，再做考虑。

不过，曹观友也强调，既然渔民没有要求现金，而是要求赔偿先进渔船，也就代表渔民还是可以继续捕鱼，只是需要去到比较远的地方。

“而且填海工程并没有涉及到拆屋，只是在海上的工程，但有人趁机要求购买或先租后售廉价屋。”

阿菲夫说，此特工队在建议填海工程时就已成立，当时由时任州行政议员拿督阿都马烈为首，也有提议在获得环境评估报告后，再继续与渔民代表讨论。

“如今获得环评报告后，我们会指示展开谈判，但需要时间研究现有的建议，因此预计9月谈判。”

他说，此特工队包括旅游、艺术及文化副部长兼浮罗山背国会议员莫哈末峇迪亚，及农业及农基工业部副部长兼峇央峇鲁国会议员沈志勤等。

州政府願講解南部填海計劃

针对目前有渔民与非政府组织人士到国会外和平集会，要求政府正视渔民和环境问题，取消槟岛南部填海计划，而首相敦马哈迪指希盟政府会研究要求取消有关计划一事，曹观友说，若有需要，州政府愿意为任何一方进行讲解会。

他透露，早前在国家实体规划理事会上发表及讨论这项计划时，其中一个被劝告要进行的，就是解决渔民所受的影响，包括考虑赔偿。

记者会出席者包括槟州行政议员杨顺兴，及槟州副秘书阿查哈等。
